SECTION 4 FIF	FIRST AID MEASURES			
First Aid Measures: Inhalation: I	f symptoms are experienced, move victim to fresh air and obtain medical advice.			
_	Rinse mouth. Drink 1 or 2 glasses of water. If irritation or discomfort occurs, obtain medical advice immediately.			
5	Do not allow victim to rub eye(s). Flush with lukewarm, gently flowing water for 5 minutes or until particle is removed. If irritation persists, obtain medical attention.			
Skin:	Wash with soap and water. If irritation persists, obtain medical advice.

SECTION 11 TO	XICOLOGICAL INFORMATION - Continued
Carcinogenicity:	Not available
Others:	Chronic effects: Muhle et al. reported pulmonary response upon chronic inhalation exposure in rats to a toner enriched in respirable-sized particles compared to commercial toner. No pulmonary change was found at 1 mg/m3 which is most relevant to potential human exposure. A minimal to mild degree of fibrosis was noted in 22% of the animals at 4 mg/m3, and a mild to moderate degree of fibrosis was observed in 92% of the animals at 16 mg/m3. These findings are attributed to "lung overloading", a generic response to excessive amounts of any dust retained in the lung for a prolonged interval.
SECTION 12 ECC	OLOGICAL INFORMATION
Mobility:	Not available
Persistence / Degradability:	Not available
Bioaccumulation:	Not available
Ecotoxicity:	Not available
Other Adverse Effects:	Not available
SECTION 13 DIS	SPOSAL CONSIDERATION
Method of Disposal:	DO NOT put toner or toner cartridge into fire; heated toner may cause severe burns. DO NOT shred a toner cartridge, unless dust-explosion preventing measures are taken. Finely dispersed particles form explosive mixtures in air. Disposal should be subject to federal, state or local laws.
