

# **Safety Data Sheet**

SDS#: TCW 0229 R - 02 US EN Issuing date: 23-Jan-2009 Revision date: 05-Aug-2020

Version: 04

# **SECTION 1: Product and company identification**

Product identifier

**Product name** Canon Cartridge 118 Yellow (for Laser Beam Printer)

2659B001 Product code(s)

Use Toner for electrophotographic machines

Details of the supplier of the safety data sheet

Supplier

Canon USA, Inc.

One Canon Park, Melville, NY 11747, USA Phone number: 1-800-OK-CANON

Emergency phone number: 24 Hr. Emergency CHEMTREC # 1-800-424-9300

Canon Canada Inc.

8000 Mississauga Road, Brampton, Ontario L6Y 5Z7, Canada

Phone number: (1) 905-863-8000

Emergency phone number: 24 Hr. Emergency CHEMTREC # 1-800-424-9300

Manufacturer

Canon Inc.

30-2, Shimomaruko 3-Chome, Ohta-ku, Tokyo 146-8501, Japan

### **SECTION 2: Hazards identification**

#### Emergency overview

Yellow fine powder, slight plastic odor.

#### Classification under OSHA HCS

Not classified

### US Label elements under OSHA HCS

**Symbol** 

Not required

Signal word

Not required

**Hazard statements** 

Not required

**Precautionary statements** 

Not required

Other information

None

Other hazards which do not result in classification

None

US EN Page 1/7

# **SECTION 3: Composition/information on ingredients**

Chemical name	CAS-No	Weight %
Styrene acrylate copolymer	CBI	75 - 85
Wax	CBI	5 - 10
Pigment	CBI	1 - 5
Amorphous silica	7631-86-9	1 - 3

# **SECTION 4: First aid measures**

Description of first aid measures

Inhalation Move to fresh air. Get medical attention immediately if symptoms occur.

Ingestion Rinse mouth. Drink 1 or 2 glasses of water. Get medical attention immediately if symptoms

occur.

Skin contact Wash off immediately with soap and plenty of water. Get medical attention immediately if

symptoms occur.

Eye contact Flush with plenty of water. Get medical attention immediately if symptoms occur.

Most important symptoms and effects, both acute and delayed

**Inhalation**None under normal use. Exposure to excessive amounts of dust may cause physical

irritation to respiratory tract.

**Ingestion** None under normal use.

Skin contact None under normal use.

**Eye contact** None under normal use. May cause slight irritation.

Chronic effects None under normal use. Prolonged inhalation of excessive amounts of dust may cause lung

damage.

Indication of any immediate medical attention and special treatment needed

None

# **SECTION 5: Firefighting measures**

Extinguishing media

Suitable extinguishing media

Use CO<sub>2</sub>, water, dry chemical, or foam.

Unsuitable extinguishing media

None

Special hazards arising from the substance or mixture

Special hazard

May form explosive mixtures with air.

**Hazardous combustion products** 

Carbon dioxide (CO<sub>2</sub>), Carbon monoxide (CO)

\_\_\_\_\_

US EN Page 2/7

#### Advice for firefighters

### Special protective equipment for firefighters

None

### **SECTION 6: Accidental release measures**

### Personal precautions, protective equipment and emergency procedures

Avoid breathing dust. Avoid contact with skin, eyes and clothing.

#### Environmental precautions

Keep out of waterways.

#### Methods and material for containment and cleaning up

Clean up promptly by scoop or vacuum. If a vacuum cleaner is used, be sure to use a model with dust explosion safety measures. May form explosive mixtures with air.

#### Other information

None

# **SECTION 7: Handling and storage**

#### Precautions for safe handling

Avoid breathing dust. Avoid contact with skin, eyes and clothing. Clean contaminated surface thoroughly. Use only with adequate ventilation.

### Conditions for safe storage, including any incompatibilities

Keep in a dry, cool and well-ventilated place. Keep out of the reach of children. Incompatible with oxidizing agents.

### SECTION 8: Exposure controls/personal protection

#### Exposure guidelines

Chemical name	OSHA PEL	ACGIH TLV
Amorphous silica	TWA: 20 mppcf	None
7631-86-9	: (80)/(% SiO2) mg/m³ TWA	

**Appropriate engineering controls** None under normal use conditions.

# Individual protection measures, such as personal protective equipment

Eye/face protectionNot required under normal use.Skin protectionNot required under normal use.Respiratory protectionNot required under normal use.

### **SECTION 9: Physical and chemical properties**

### Information on basic physical and chemical properties

AppearanceYellow ; powderOdorSlight odorOdor thresholdNo data availablepHNot applicable

US EN Page 3/7

Melting/freezing point (°C) 80-130 (Softening point)

Boiling point/range(°C)Not applicableFlash point(°C)Not applicableEvaporation rateNot applicable

Flammability (solid, gas)

Not flammable; estimated

Flammability limits in air

Upper flammability limit
Lower flammability limit
Vapor pressure
Vapor density
Relative density

Not applicable
Not applicable
Not applicable
1.0-1.2

Solubility(ies) Organic solvent; partly soluble

Partition coefficient: n-octanol/water

Auto-ignition temperature (°C)

Not applicable
No data available

Decomposition temperature (°C) > 200

Viscosity (mPa s) Not applicable

Other information

No data available

# **SECTION 10: Stability and reactivity**

Reactivity

None

Chemical stability

Stable

Possibility of hazardous reactions

None

Conditions to avoid

None

Incompatible materials

Acids, Bases, Oxidizing agents, Reducing agents.

Hazardous decomposition products

Carbon dioxide (CO<sub>2</sub>), Carbon monoxide (CO)

# **SECTION 11: Toxicological information**

Information on toxicological effects

Acute toxicity Estimate: LD50 > 2000 mg/kg (Ingestion)

Skin corrosion/irritation Estimate: Non-irritant

Sensitization Estimate: Non-sensitizing

Germ cell mutagenicity Ames Test (S. typhimurium, E. coli): Negative

Carcinogenicity No data available

Reproductive toxicity No data available

STOT - single exposure No data available

STOT - repeated exposure Muhle et al. reported pulmonary response upon chronic inhalation exposure in rats to a

toner enriched in respirable-sized particles compared to commercial toner. No pulmonary change was found at 1 mg/m³ which is most relevant to potential human exposure. A minimal to mild degree of fibrosis was noted in 22% of the animals at 4 mg/m³, and a mild to moderate degree of fibrosis was observed in 92% of the animals at 16 mg/m³. These findings are attributed to "lung overloading", a generic response to excessive

amounts of any dust retained in the lung for a prolonged interval.

Aspiration hazard No data available

Other information No data available

# **SECTION 12: Ecological information**

#### Toxicity

### **Ecotoxicity effects**

Estimate: Fish, 96h LC50 > 100 mg/l Estimate: Crustaceans, 48h EC50 > 100 mg/l Estimate: Algae, ErC50(0-72h) > 100 mg/l

#### Persistence and degradability

No data available

### Bioaccumulative potential

No data available

### Mobility in soil

No data available

#### Other adverse effects

No data available

# **SECTION 13: Disposal considerations**

#### Waste treatment methods

DO NOT put toner or a toner container into fire. Heated toner may cause severe burns. DO NOT dispose of a toner container in a plastic crusher. Use a facility with dust explosion prevention measures. Finely dispersed particles form explosive mixtures with air. Dispose of in accordance with local regulations.

### **SECTION 14: Transport information**

UN number None

UN proper shipping name None

Transport hazard class None

Packing group None

Environmental hazards Not classified as environmentally hazardous under UN Model Regulations and

marine pollutant under IMDG Code.

Special precautions for users IATA: Not regulated

Transport in bulk according to Annex II of

MARPOL and the IBC Code

Not applicable

# **SECTION 15: Regulatory information**

Safety, health and environmental regulations specific for the product in question

TSCA Sec. 4,5,6,7,8,12b None SARA Title III Sec. 313 None California Proposition 65 None

CEPA Sec. 81 None (Manufactured Item)
HPA (WHMIS) None (Manufactured Article)

Other information None

### **SECTION 16: Other information**
