SECTION 1: Product and company identification

Product Identifier

Product name: Canon GPR-27 Magenta Toner 2P
Product Code(s): 9643A008
Use: Toner for electrophotographic machines

Details of the supplier of the safety data sheet

Supplier
Canon USA, Inc.
One Canon Park, Melville, NY 11747, USA
Phone number: 1-800-OK-CANON
Emergency phone number: 24 Hr. Emergency CHEMTREC # 1-800-424-9300

Canon Canada Inc.
6390 Dixie Road, Mississauga, Ontario L5T 1P7, Canada
Phone number: (1) 905-795-1111
Emergency phone number: 24 Hr. Emergency CHEMTREC # 1-800-424-9300

Manufacturer
Canon Inc.
30-2, Shimomaruko 3-Chome, Ohta-ku, Tokyo 146-8501, Japan

SECTION 2: Hazards identification

Emergency Overview
Magenta fine powder, slight plastic odor.

Classification under OSHA HCS
Not classified

US Label Elements under OSHA HCS

Symbol
Not required

Signal word
Not required

Hazard statements
Not required

Precautionary statements
Not required

Other Information
None

Other hazards which do not result in classification
None
SECTION 3: Composition/information on ingredients

SECTION 4: First aid measures

Description of first aid measures

Inhalation  
Move to fresh air. Get medical attention immediately if symptoms occur.

Ingestion  
Rinse mouth. Drink 1 or 2 glasses of water. Get medical attention immediately if symptoms occur.

Skin Contact  
Wash off immediately with soap and plenty of water. Get medical attention immediately if symptoms occur.

Eye Contact  
Flush with plenty of water. Get medical attention immediately if symptoms occur.

Most important symptoms and effects, both acute and delayed

Inhalation  
None under normal use. Exposure to excessive amounts of dust may cause physical irritation to respiratory tract.

Ingestion  
None under normal use.

Skin Contact  
None under normal use.

Eye Contact  
None under normal use. May cause slight irritation.

Chronic Effects  
None under normal use. Prolonged inhalation of excessive amounts of dust may cause lung damage.

Indication of any immediate medical attention and special treatment needed

None

SECTION 5: Firefighting measures

Extinguishing media

Suitable extinguishing media  
Use CO2, dry chemical, or foam, Water.

Unsuitable extinguishing media  
None

Special hazards arising from the substance or mixture

Special Hazard  
May form explosive mixtures with air.

Hazardous combustion products  
Carbon dioxide (CO$_2$), Carbon monoxide (CO)
Advice for firefighters

Special protective equipment for fire-fighters
None

SECTION 6: Accidental release measures

Personal precautions, protective equipment and emergency procedures

Avoid breathing dust. Avoid contact with skin, eyes and clothing.

Environmental Precautions

Keep out of waterways.

Methods and material for containment and cleaning up

Clean up promptly by scoop or vacuum. If a vacuum cleaner is used, be sure to use a model with dust explosion safety measures. May form explosive mixtures with air.

Other Information
None

SECTION 7: Handling and storage

Precautions for safe handling

Avoid breathing dust. Avoid contact with skin, eyes and clothing. Clean contaminated surface thoroughly. Use only with adequate ventilation.

Conditions for safe storage, including any incompatibilities

Keep in a dry, cool and well-ventilated place. Keep out of the reach of children. Incompatible with oxidizing agents.

SECTION 8: Exposure controls/personal protection

Exposure guidelines

<table>
<thead>
<tr>
<th>Chemical name</th>
<th>OSHA PEL</th>
<th>ACGIH TLV</th>
</tr>
</thead>
<tbody>
<tr>
<td>Titanium dioxide</td>
<td>TWA: 15 mg/m³ total dust</td>
<td>TWA: 10 mg/m³</td>
</tr>
</tbody>
</table>

Appropriate engineering controls
None under normal use conditions.

Individual protection measures, such as personal protective equipment

Eye/face Protection
Not required under normal use.

Skin Protection
Not required under normal use.

Respiratory Protection
Not required under normal use.

SECTION 9: Physical and chemical properties

Information on basic physical and chemical properties

Appearance
Magenta; powder

Odor
Slight odor

Odor threshold
No data available
 SECTION 10: Stability and reactivity

Reactivity

None

Chemical stability

Stable

Possibility of Hazardous Reactions

None

Conditions to Avoid

None

Incompatible materials

Acids, Bases, Oxidizing agents, Reducing agents.

Hazardous Decomposition Products

Carbon dioxide (CO₂), Carbon monoxide (CO)

 SECTION 11: Toxicological information

Information on toxicological effects

Acute toxicity

Estimate: LD50 > 2000 mg/kg (Ingestion)

Skin corrosion/irritation

Estimate: Non-irritant

Serious eye damage/eye irritation

Estimate: Transient slight conjunctival irritation only.

Sensitization

Estimate: Non-sensitizing
Germ cell mutagenicity

Ames Test (S. typhimurium, E. coli): Negative

Carcinogenicity

The IARC evaluated titanium dioxide as a Group 2B carcinogen, for which there is inadequate human evidence, but sufficient animal evidence. The latter is based upon the evidence such as development of lung tumors in rats receiving chronic inhalation exposure to powdered titanium dioxide at levels that induce particle overload of the lung. However, there is an inhalation study of a toner containing titanium dioxide which suggested no association between toner exposure and tumor development in rats.

Reproductive Toxicity

No data available

STOT - single exposure

No data available

STOT - repeated exposure

Muhle et al. reported pulmonary response upon chronic inhalation exposure in rats to a toner enriched in respirable-sized particles compared to commercial toner. No pulmonary change was found at 1 mg/m$^3$ which is most relevant to potential human exposure. A minimal to mild degree of fibrosis was noted in 22% of the animals at 4 mg/m$^3$, and a mild to moderate degree of fibrosis was observed in 92% of the animals at 16 mg/m$^3$. These findings are attributed to “lung overloading”, a generic response to excessive amounts of any dust retained in the lung for a prolonged interval.

Aspiration hazard

No data available

Other Information

No data available

SECTION 12: Ecological information

Toxicity

Ecotoxicity effects

Fish, 96h LL50 > 1000 mg/l (WAF)
Crustaceans, 48h EL50 > 1000 mg/l (WAF)
Algae, ErL50(0-72h) > 1000 mg/l (WAF)

Persistence and degradability

No data available

Bioaccumulative potential

No data available

Mobility in soil

No data available

Other adverse effects

No data available

SECTION 13: Disposal considerations

Waste treatment methods

DO NOT put toner or a toner container into fire. Heated toner may cause severe burns. DO NOT dispose of a toner container in a plastic crusher. Use a facility with dust explosion prevention measures. Finely dispersed particles form explosive mixtures with air. Dispose of in accordance with local regulations.
SECTION 14: Transport information

UN number
None

UN Proper Shipping Name
None

Transport Hazard Class
None

Packing Group
None

Environmental Hazards
No special environmental precautions required.

Special Precautions for users
None

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
Not Applicable

SECTION 15: Regulatory information

Safety, health and environmental regulations specific for the product in question

TSCA Sec. 4,5,6,7,8,12b
None

SARA Title III Sec. 313
None

California Proposition 65
None

CEPA Sec. 81
None (Manufactured Item)

HPA (WHMIS)
None (Manufactured Article)

Other Information
None
