SECTION 1: Product and company identification

Product identifier

Product name: Canon FX7 Cartridge
Product code(s): 7621A001
Use: Toner for electrophotographic machines

Details of the supplier of the safety data sheet

Supplier
Canon USA, Inc.
One Canon Park, Melville, NY 11747, USA
Phone number: 1-800-OK-CANON
Emergency phone number: 24 Hr. Emergency CHEMTREC # 1-800-424-9300

Canon Canada Inc.
8000 Mississauga Road, Brampton, Ontario L6Y 5Z7, Canada
Phone number: (1) 905-863-8000
Emergency phone number: 24 Hr. Emergency CHEMTREC # 1-800-424-9300

Manufacturer
Canon Inc.
30-2, Shimomaruko 3-Chome, Ohta-ku, Tokyo 146-8501, Japan

SECTION 2: Hazards identification

Emergency overview
Black fine powder, slight plastic odor.

Classification under OSHA HCS
Not classified

US Label elements under OSHA HCS
Symbol
Not required

Signal word
Not required

Hazard statements
Not required

Precautionary statements
Not required

Other information
None

Other hazards which do not result in classification
None
SECTION 3: Composition/information on ingredients

<table>

</tbody>
</table>

SECTION 4: First aid measures

**Description of first aid measures**

**Inhalation**
Move to fresh air. Get medical attention immediately if symptoms occur.

**Ingestion**
Rinse mouth. Drink 1 or 2 glasses of water. Get medical attention immediately if symptoms occur.

**Skin contact**
Wash off immediately with soap and plenty of water. Get medical attention immediately if symptoms occur.

**Eye contact**
Flush with plenty of water. Get medical attention immediately if symptoms occur.

**Most important symptoms and effects, both acute and delayed**

**Inhalation**
None under normal use. Exposure to excessive amounts of dust may cause physical irritation to respiratory tract.

**Ingestion**
None under normal use.

**Skin contact**
None under normal use.

**Eye contact**
None under normal use. May cause slight irritation.

**Chronic effects**
None under normal use. Prolonged inhalation of excessive amounts of dust may cause lung damage.

**Indication of any immediate medical attention and special treatment needed**

None

SECTION 5: Firefighting measures

**Extinguishing media**

**Suitable extinguishing media**
Use CO$_2$, water, dry chemical, or foam.

**Unsuitable extinguishing media**
None

**Special hazards arising from the substance or mixture**

**Special hazard**
May form explosive mixtures with air.

**Hazardous combustion products**
Carbon dioxide (CO$_2$), Carbon monoxide (CO)

**Advice for firefighters**
SECTION 6: Accidental release measures

Personal precautions, protective equipment and emergency procedures

Avoid breathing dust. Avoid contact with skin, eyes and clothing.

Environmental precautions

Keep out of waterways.

Methods and material for containment and cleaning up

Clean up promptly by scoop or vacuum. If a vacuum cleaner is used, be sure to use a model with dust explosion safety measures. May form explosive mixtures with air.

Other information

None

SECTION 7: Handling and storage

Precautions for safe handling

Avoid breathing dust. Avoid contact with skin, eyes and clothing. Clean contaminated surface thoroughly. Use only with adequate ventilation.

Conditions for safe storage, including any incompatibilities

Keep in a dry, cool and well-ventilated place. Keep out of the reach of children. Incompatible with oxidizing agents.

SECTION 8: Exposure controls/personal protection

Exposure guidelines

<table>
<thead>
<tr>
<th>Chemical name</th>
<th>OSHA PEL</th>
<th>ACGIH TLV</th>

<td></td>
<td>(80)/(% SiO₂) mg/m³ TWA</td>
</tr>
</tbody>
</table>

Appropriate engineering controls  None under normal use conditions.

Individual protection measures, such as personal protective equipment

- Eye/face protection  Not required under normal use.
- Skin protection  Not required under normal use.
- Respiratory protection  Not required under normal use.

SECTION 9: Physical and chemical properties

Information on basic physical and chemical properties

- Appearance  Black ; powder
- Odor  Slight odor
- Odor threshold  No data available
- pH  Not applicable
- Melting/freezing point (°C)  100 - 150 (Softening point)
- Boiling point/range (°C)  Not applicable
Flash point (°C) Not applicable
Evaporation rate Not applicable
Flammability (solid, gas) Not flammable; estimated
Flammability limits in air
   Upper flammability limit Not applicable
   Lower flammability limit Not applicable
Vapor pressure Not applicable
Vapor density Not applicable
Relative density 1.4 - 1.8
Solubility(ies) Organic solvent; partly soluble
Partition coefficient: n-octanol/water Not applicable
Auto-ignition temperature (°C) No data available
Decomposition temperature (°C) > 200
Viscosity (mPa s) Not applicable

Other information
No data available

SECTION 10: Stability and reactivity

Reactivity
None

Chemical stability
Stable

Possibility of hazardous reactions
None

Conditions to avoid
None

Incompatible materials
Acids, Bases, Oxidizing agents, Reducing agents.

Hazardous decomposition products
Carbon dioxide (CO₂), Carbon monoxide (CO)

SECTION 11: Toxicological information

Information on toxicological effects
Acute toxicity Estimate: LD50 > 2000 mg/kg (Ingestion)
Skin corrosion/irritation Estimate: Non-irritant
Serious eye damage/eye irritation Estimate: Transient slight conjunctival irritation only.
Sensitization Estimate: Non-sensitizing
Germ cell mutagenicity Estimate: Ames Test (S. typhimurium, E. coli): Negative
Carcinogenicity No data available
Reproductive toxicity: No data available

STOT - single exposure: No data available

STOT - repeated exposure: Muhle et al. reported pulmonary response upon chronic inhalation exposure in rats to a toner enriched in respirable-sized particles compared to commercial toner. No pulmonary change was found at 1 mg/m³ which is most relevant to potential human exposure. A minimal to mild degree of fibrosis was noted in 22% of the animals at 4 mg/m³, and a mild to moderate degree of fibrosis was observed in 92% of the animals at 16 mg/m³. These findings are attributed to "lung overloading", a generic response to excessive amounts of any dust retained in the lung for a prolonged interval.

Aspiration hazard: No data available

Other information: No data available

### SECTION 12: Ecological information

#### Toxicity

**Ecotoxicity effects**
- Estimate: Fish, 96h LL50 > 1000 mg/l (WAF)
- Estimate: Crustaceans, 48h EL50 > 1000 mg/l (WAF)
- Estimate: Algae, ErL50(0-72h) > 1000 mg/l (WAF)

#### Persistence and degradability
No data available

**Bioaccumulative potential**
No data available

**Mobility in soil**
No data available

**Other adverse effects**
No data available

### SECTION 13: Disposal considerations

**Waste treatment methods**
DO NOT put toner or a toner container into fire. Heated toner may cause severe burns. DO NOT dispose of a toner container in a plastic crusher. Use a facility with dust explosion prevention measures. Finely dispersed particles form explosive mixtures with air. Dispose of in accordance with local regulations.

### SECTION 14: Transport information

**UN number**
2807

**UN proper shipping name**
Magnetized material

**Transport hazard class**
9
Packing group: None

Environmental hazards: Not classified as environmentally hazardous under UN Model Regulations and marine pollutant under IMDG Code.

Special precautions for users: 55 or more of these products shipped together, by air, are regulated as magnetized material.

Transport in bulk according to Annex II of MARPOL and the IBC Code: Not applicable

SECTION 15: Regulatory information

Safety, health and environmental regulations specific for the product in question:

<table>
<thead>
<tr>
<th>Regulation</th>
<th>Status</th>
</tr>
