

**SECTION 1: Product and company identification****Product identifier**

**Product name** Canon imagePRESS C10000VP Starter Black  
**Product code(s)** 8534B001  
**Use** Toner for electrophotographic machines

**Details of the supplier of the safety data sheet****Supplier**

Canon USA, Inc.  
One Canon Park, Melville, NY 11747, USA  
Phone number : 1-800-OK-CANON  
Emergency phone number : 24 Hr. Emergency CHEMTREC # 1-800-424-9300

Canon Canada Inc.  
8000 Mississauga Road, Brampton, Ontario L6Y 5Z7, Canada  
Phone number : (1) 905-863-8000  
Emergency phone number : 24 Hr. Emergency CHEMTREC # 1-800-424-9300

**Manufacturer**

Canon Inc.  
30-2, Shimomaruko 3-Chome, Ohta-ku, Tokyo 146-8501, Japan

**SECTION 2: Hazards identification****Emergency overview**

Grayish fine powder, slight plastic odor.  
Inhalation of excessive amounts of manganese powder may cause cough, shortness of breath or pneumonitis.

**Classification under OSHA HCS**

Not classified

**US Label elements under OSHA HCS****Symbol**

Not required

**Signal word**

Not required

**Hazard statements**

Not required

**Precautionary statements**

Not required

**Other information**

None

**Other hazards which do not result in classification**

None

### SECTION 3: Composition/information on ingredients

Chemical name	CAS-No	Weight %
Ferrite including manganese	66402-68-4	80 - 90(as Mn:10-20)
Polyester resin	CBI	< 10
Carbon black	1333-86-4	< 1

### SECTION 4: First aid measures

#### Description of first aid measures

<b>Inhalation</b>	Move to fresh air. Get medical attention immediately if symptoms occur.
<b>Ingestion</b>	Rinse mouth. Drink 1 or 2 glasses of water. Get medical attention immediately if symptoms occur.
<b>Skin contact</b>	Wash off immediately with soap and plenty of water. Get medical attention immediately if symptoms occur.
<b>Eye contact</b>	Flush with plenty of water. Get medical attention immediately if symptoms occur.

#### Most important symptoms and effects, both acute and delayed

<b>Inhalation</b>	None under normal use. Inhalation of excessive amounts of manganese powder may cause cough, shortness of breath or pneumonitis.
<b>Ingestion</b>	None under normal use.
<b>Skin contact</b>	None under normal use.
<b>Eye contact</b>	None under normal use. May cause slight irritation.

#### Indication of any immediate medical attention and special treatment needed

None

### SECTION 5: Firefighting measures

#### Extinguishing media

##### **Suitable extinguishing media**

Use CO<sub>2</sub>, water, dry chemical, or foam.

##### **Unsuitable extinguishing media**

None

#### Special hazards arising from the substance or mixture

##### **Special hazard**

May form explosive mixtures with air.

##### **Hazardous combustion products**

Carbon dioxide (CO<sub>2</sub>), Carbon monoxide (CO)

#### Advice for firefighters

##### **Special protective equipment for firefighters**

None

## SECTION 6: Accidental release measures

### Personal precautions, protective equipment and emergency procedures

Avoid breathing dust. Avoid contact with skin, eyes and clothing.

### Environmental precautions

Keep out of waterways.

### Methods and material for containment and cleaning up

Clean up promptly by scoop or vacuum. If a vacuum cleaner is used, be sure to use a model with dust explosion safety measures. May form explosive mixtures with air.

### Other information

None

## SECTION 7: Handling and storage

### Precautions for safe handling

Avoid breathing dust. Avoid contact with skin, eyes and clothing. Clean contaminated surface thoroughly. Use only with adequate ventilation.

### Conditions for safe storage, including any incompatibilities

Keep in a dry, cool and well-ventilated place. Keep out of the reach of children. Incompatible with oxidizing agents.

## SECTION 8: Exposure controls/personal protection

### Exposure guidelines

Chemical name	OSHA PEL	ACGIH TLV
Ferrite including manganese 66402-68-4	Ceiling: 5 mg/m <sup>3</sup> Mn	TWA: 0.1 mg/m <sup>3</sup> Mn inhalable fraction
Carbon black 1333-86-4	TWA: 3.5 mg/m <sup>3</sup>	TWA: 3 mg/m <sup>3</sup> inhalable particulate matter

**Appropriate engineering controls** None under normal use conditions.

### **Individual protection measures, such as personal protective equipment**

**Eye/face protection** Not required under normal use.  
**Skin protection** Not required under normal use.  
**Respiratory protection** Not required under normal use.

## SECTION 9: Physical and chemical properties

### Information on basic physical and chemical properties

**Appearance** Grayish ; powder  
**Odor** Slight odor  
**Odor threshold** No data available  
**pH** Not applicable  
**Melting/freezing point (°C)** 85 - 120 (Softening point)  
**Boiling point/range (°C)** Not applicable

Flash point (°C)	Not applicable
Evaporation rate	Not applicable
Flammability (solid, gas)	Not flammable; estimated
Flammability limits in air	
Upper flammability limit	Not applicable
Lower flammability limit	Not applicable
Vapor pressure	Not applicable
Vapor density	Not applicable
Relative density	3.0 - 5.0
Solubility(ies)	Organic solvent; partly soluble
Partition coefficient: n-octanol/water	Not applicable
Auto-ignition temperature (°C)	No data available
Decomposition temperature (°C)	> 200
Viscosity (mPa s)	Not applicable

**Other information**

No data available

**SECTION 10: Stability and reactivity**

**Reactivity**

None

**Chemical stability**

Stable

**Possibility of hazardous reactions**

None

**Conditions to avoid**

None

**Incompatible materials**

Acids, Bases, Oxidizing agents, Reducing agents.

**Hazardous decomposition products**

Carbon dioxide (CO<sub>2</sub>), Carbon monoxide (CO)

**SECTION 11: Toxicological information**

**Information on toxicological effects**

<b>Acute toxicity</b>	LD50 > 2000 mg/kg (Ingestion)
<b>Skin corrosion/irritation</b>	Not classified based on the classification criteria under UN GHS (OECD Guideline)
<b>Serious eye damage/eye irritation</b>	Not classified based on the classification criteria under UN GHS (OECD Guideline)
<b>Sensitization</b>	Not classified based on the classification criteria under UN GHS (OECD Guideline)
<b>Germ cell mutagenicity</b>	Ames Test (S. typhimurium, E. coli): Negative
<b>Carcinogenicity</b>	The IARC evaluated carbon black as a Group 2B carcinogen, for which there is inadequate

human evidence, but sufficient animal evidence. The latter is based upon the development of lung tumors in rats receiving chronic inhalation exposure to powdered carbon black at levels that induce particle overload of the lung.

However, there is a two-year inhalation study of a toner containing carbon black which demonstrated no association between toner exposure and tumor development in rats.

**Reproductive toxicity** No data available

**STOT - single exposure** No data available

**STOT - repeated exposure** Muhle et al. reported pulmonary response upon chronic inhalation exposure in rats to a toner enriched in respirable-sized particles compared to commercial toner. No pulmonary change was found at 1 mg/m<sup>3</sup> which is most relevant to potential human exposure. A minimal to mild degree of fibrosis was noted in 22% of the animals at 4 mg/m<sup>3</sup>, and a mild to moderate degree of fibrosis was observed in 92% of the animals at 16 mg/m<sup>3</sup>. These findings are attributed to "lung overloading", a generic response to excessive amounts of any dust retained in the lung for a prolonged interval.

**Aspiration hazard** No data available

**Other information** Manganese and its inorganic compounds:  
There are studies showing that inhalation of excessive amounts of manganese cause effects on nervous system, respiratory function, and reproductive function.  
However, no inhalation of manganese at a level which causes such adverse effects is expected under intended use of this product.

## SECTION 12: Ecological information

### Toxicity

#### **Ecotoxicity effects**

No data available

#### **Persistence and degradability**

No data available

#### **Bioaccumulative potential**

No data available

#### **Mobility in soil**

No data available

#### **Other adverse effects**

No data available

## SECTION 13: Disposal considerations

### **Waste treatment methods**

DO NOT put toner or a toner container into fire. Heated toner may cause severe burns. DO NOT dispose of a toner container in a plastic crusher. Use a facility with dust explosion prevention measures. Finely dispersed particles form explosive mixtures with air. Dispose of in accordance with local regulations.

## SECTION 14: Transport information

<u>UN number</u>	Not applicable
<u>UN proper shipping name</u>	Not applicable
<u>Transport hazard class</u>	Not applicable
<u>Packing group</u>	Not applicable
<u>Environmental hazards</u>	Not classified as environmentally hazardous under UN Model Regulations and marine pollutant under IMDG Code.
<u>Special precautions for users</u>	IATA: Not regulated
<u>Transport in bulk according to Annex II of MARPOL and the IBC Code</u>	Not applicable

## SECTION 15: Regulatory information

### Safety, health and environmental regulations specific for the product in question

<b>TSCA Sec. 4,5,6,7,8,12b</b>	None
<b>SARA Title III Sec. 313</b>	"Manganese compounds" : 80 - 90 Weight % (as Mn : 10 - 20 Weight %)
<b>California Proposition 65</b>	None
<b>CEPA Sec. 81</b>	None
<b>HPA (WHMIS)</b>	Not a controlled product
<b>Other information</b>	None

## SECTION 16: Other information

The data in SECTION 9, 11 and 12 of this SDS are based on the test results of this product, or estimates based on the data of similar product or the ingredients of this product.
