HIGH-SPEED DOCUMENT SCANNERS
Canon U.S.A., Inc., headquartered in Lake Success, NY, delivers commercial imaging solutions. Canon’s complete line of document, network, and check scanners, enable businesses to improve costs, efficiencies, management, security, and compliance related to capturing, storing, and sharing information.

The Canon imageFORMULA scanners satisfy a wide variety of document imaging needs and budgets with a full-range of scanning solutions. They offer the kind of high-performance features that make converting paper to electronic documents easier, such as high-speeds, advanced image processing, and flexible configuration options.

The complete Canon scanner line offers high image quality, leveraging years of experience in developing high-precision optics technologies. It also offers flexible and reliable scanning of mixed batches of documents. And finally, it delivers outstanding value.

Canon scanners are based on a tradition of excellence, with solutions designed to improve workflows and cater to user and corporate requirements. Canon scanners are efficient and affordable imaging solutions, satisfying a wide variety of content management needs. With strong alliance and compatibility partnerships, strong industry associations, and strong channels of delivery and fulfillment, Canon can help any business make the transition into the paperless office.
The Canon imageFORMULA ScanFront Series of network scanners are ideal for decentralized or distributed scanning applications, and for easily sharing documents via a network. They are easy-to-use and manage, secure, and plug right into an office network to deliver direct network scanning and sending.
SCAN TO SHARE THROUGH THE NETWORK
Expand productivity and workflow efficiency with Canon's innovative, sleek, stand-alone network scanners that can plug right into an office network to deliver direct network scanning and sending.

- Network ready, stand-alone scanners
- Letter-sized color duplex scanning
- Large 8.5-inch color touch screen
- Scan directly to e-mail, shared folder, FTP, and USB memory
- Personal, shared, and LDAP address books
- Customizable Job Buttons
- Easy remote administration and robust security features

SPECIFICATIONS

Scanning:
- Up to 26 ppm / 35 ipm**
- Black & White, Grayscale, Color, Text Enhance, Error Diffusion
- 600 dpi
- 50 sheets
- Width: 2” - 8.5” Length: 2.1” - 14”
- 1,500 scans / day

Network:
- Scan-To-E-mail, Shared Folder, FTP, and USB Memory
- TCP/IP, SMTP, DHCP, SMB, LDAP, NTP

General:
- H 6.2” x W 12.2” x D 9.2”
- 7.5 lbs.
- LAN 10Base-T/100Base-TX, 2x USB 2.0, 2x PS/2

Features:
- Auto Page Size Detection
- Bleed Through Prevention
- Color Dropout / Enhance Color
- Deskew
- Fingerprint Reader (220P Only)
- Skip Blank Page
- Ultrasonic Double-Feed Detection (220P Only)

Options:
- Exchange Roller Kit
- Soft Carrying Case
- One-Year CarePAK (Exchange Service)
- Two-Year CarePAK (Exchange Service)

*Examples based on typical settings, rated in pages per minute with letter-sized documents at 150 dpi for color.
**Examples based on typical settings, rated in pages/images per minute with letter-sized documents at 200 dpi for B&W.
SEAMLESS BUSINESS WORKFLOW INTEGRATION

Network scanners, powered by eCopy ShareScan, deliver state-of-the-art image capture and intuitive document sharing through seamless integration with existing networks, workflows, and applications.

- Letter-sized color duplex scanning
- Large 8.5-inch color touch screen
- Direct integration into Microsoft and Novell networks
- Network address books and databases such as Microsoft Access, Microsoft SQL and Oracle
- eCopy Connectors for integration with networked software applications
- Scan-to-Email, FTP, Printer, Fax and much more

SPECIFICATIONS

Scanning:
- Speed: Up to 24 ppm / 26 ipm**
- Scanning Modes: Black & White, Grayscale, Color, Text Enhance, Halftone
- Optical Resolution: 600 dpi
- Feeder Capacity: 50 sheets
- Document Size: Width: 2” - 8.5” Length: 2.1” - 14”
- Suggested Volume: 1,500 scans / day

Network:
- Sending Functions: Scan-To-E-mail, Fax, Folder, FTP, Index, Print WebDAV, Database and USB Memory
- Protocols: TCP/IP, SMTP, DHCP, SMB, LDAP

General:
- Dimensions: H 6.2” x W 12.2” x D 9.2”
- Weight: 7.5 lbs.
- Interface: LAN 10Base-T/100Base-TX, USB 2x2.0, 2xPS/2

Features:
- Auto Page Size Detection
- Bleed Through Prevention
- Color Dropout / Enhance Color
- Deskew
- Fingerprint Reader (220eP Only)
- Skip Blank Page
- Ultrasonic Double-Feed Detection (220eP Only)

Options:
- Exchange Roller Kit
- Soft Carrying Case
- One-Year CarePAK (Exchange Service)
- Microsoft SharePoint Connector
- Interwoven WorkSite Connector
- Open Text RightFax Connector
- EMC Documentum Connector

*Examples based on typical settings, rated in pages per minute with letter-sized documents at 150 dpi for color.
**Examples based on typical settings, rated in pages/images per minute with letter-sized documents at 200 dpi for B&W.
Personal Scanners

Canon’s line of imageFORMULA P-Series personal scanners allow Small Office / Home Office (SOHO) users, telecommuters, and road warriors to improve personal efficiency and individual productivity. Highly portable and mobile, these small, easy-to-use scanners are for individual or shared use for general purpose, distributed scanning tasks, from the convenience of any location.
ULTIMATE MOBILITY
Compact, simple use, and advanced feature set liberate document capture by taking it beyond the walls of the office to the convenience of any user location.

- Ultra-compact color duplex scanner
- Lightweight, portable, and mobile
- Simple-to-use, built-in Plug and Scan capability
- Productive and practical with advanced feature set
- USB Powered
- Easy scanning with CaptureOnTouch

*Examples based on typical settings, rated in pages/images per minute with letter-sized documents at 200 dpi. Actual processing speeds may vary based on power supply configuration (1x / 2x USB or 1x USB + Power Supply) and on PC performance and application software.
Canon’s line of compact imageFORMULA DR-Series workgroup scanners enable small- and medium-sized businesses (SMBs) and large enterprises alike to decentralize or distribute document capture closer to the work itself. They are typically used by individuals or by small groups of users for ad-hoc, or general purpose scanning tasks, and represent outstanding value.
## Class-Leading Flatbed Scanner

Enhance office productivity with reliable, versatile, three-way scanning - ADF, Flatbed, and dedicated business card scanning - plus rapid, one-pass duplex scanning.

- Same scanning speed regardless of scanning mode - simplex or duplex; B&W, Grayscale
- Flatbed offering easy scanning of hard-to-handle documents
- User-friendly scanning with built-in preset and customizable Scan-To-Job function
- Extensive software bundle
- Copier-like control panel

*Examples based on typical settings, rated in pages/images per minute with letter-sized documents at 200 dpi. Actual processing speeds may vary based on PC performance and application software.
Canon’s line of imageFORMULA DR-Series production scanners is ideal for vigorous scanning tasks. Designed to maximize productivity in high-volume, centralized, data capture environments, Canon’s production scanners maintain the integrity of documents at rapid speeds for mission-critical document conversion and content management. Combining high-speeds with increased scanning reliability and efficiencies, Canon’s production scanners efficiently transform masses of hard-copy documents into identifiable electronic information required in today’s marketplace.
**Ultimate Scanning Flexibility and Image Quality**

Universal production scanner delivering incredible flexibility, image quality, and reliability, all at high scanning speeds.

- Flexible universal production scanner
- Two-way design capable of fast one-pass duplex rotary and easy flatbed scanning
- Same fast scanning speeds in color, grayscale and B&W
- Combination flatbed and ADF scanning capabilities for a variety of sources, from books to 11” x 17” documents
- Easy-to-use copier-like control panel for effortless operation

**HIGH-SPEED, HIGH-QUALITY SCANNING FOR ULTIMATE PRODUCTION EFFICIENCY**

True high-speed scanning that provides enterprises with reliable, high image quality and flexible scanning solutions.

- Fast production color duplex scanner
- Same fast scanning speeds in color, grayscale and B&W
- User adjustable Paper Feed Tray height (Two Heights)
- Long Document Mode for documents up to 118.1” long
- Staple Detection
- Programmable Scan-To-Job buttons accessible through an intuitive control panel

**Scanning:**

- **Speed:** 70 ppm / 140 ipm*
- **Scanning Modes:** Black & White, Grayscale, Color
- **Optical Resolution:** 600 dpi
- **Feeder Capacity:** 300 sheets
- **Document Size:** Width: 2” - 12” Length: 2.8” - 17”
- **Long Doc Mode:** Up to 118.1”
- **Suggested Volume:** 12,000 scans / day

**General:**

- **Dimensions:** H 12.2” x W 18.9” x D 20.9”
- **Weight:** 50 lbs.
- **Power Consumption:** 83W or Less
- **Interface:** Hi-Speed USB 2.0 / SCSI-III

**Features:**

- Advanced Text Enhancement (Two Types)
- Auto Color Detection
- Auto Page Size Detection
- Count Only Mode
- Skip Blank Page
- Staple Detection
- Ultrasonic Double-Feed Detection

**Bundled Software:**

- Canon CapturePerfect

**Options:**

- Exchange Roller Kit
- Barcode Module III
- Imprinter Unit
- Patchcode Decoder
- Nine-Month CarePAK (On-Site Service)
- One-Year CarePAK (On-Site Service)

*Examples based on typical settings, rated in pages/images per minute with letter-sized documents at 200 dpi, in landscape orientation. Actual processing speeds may vary based on PC performance and application software.*

DR-X10C

**Taking Production Scanning to a New Level**
State-of-the-art performance and flexibility for reliable, high-volume scanning for service bureaus and other locations where speed, consistency, accuracy, and cost-efficiency are paramount.

- Fast production color duplex scanner
- Same fast scanning speeds in color, grayscale and B&W
- Industry's first Three-Step Dust Prevention System results in clearer images and minimized maintenance
- Programmable Scan-To-Job buttons, intuitive control panel, and ergonomic design for simple operation

**Canon Software – CapturePerfect**

**Comprehensive Document Imaging Software to Maximize Canon Scanner Performance**

Canon's CapturePerfect software delivers image processing features needed to obtain the highest image quality in even the most rigorous scanning environments. It is designed to help maximize Canon scanner performance, increase productivity and streamline document imaging workflows.

CapturePerfect helps Canon scanners deliver images of the highest quality, true to their original, while providing convenient ways to edit, arrange, and manage files with a drag-and-drop interface. Perfect images can be captured from even the most difficult original documents for immediate distribution to file folders, presentations, printers, and e-mail.

CapturePerfect software can help increase the productivity and workflow of a company's Enterprise Content Management (ECM) process.

**Canon Software – CaptureOnTouch**

**Increase User Productivity by Simplifying the Document Scanning Process**

Canon's CaptureOnTouch software tool can help increase user productivity by simplifying the document scanning process. The intuitive interface enables users to quickly and efficiently scan documents and automatically distribute them.

Developed for quick and intuitive scanning, CaptureOnTouch leads users through the complete scanning process step-by-step. Even if familiar with document scanning and electronic data storage, businesses can profit from reduced user errors and save valuable time through faster processing and improved control of where files are sent.

The CaptureOnTouch software tool can help provide extra value through simplifying how scanning is handled for companies that are striving to improve their document imaging processes.
Canon’s imageFormula DR- and ScanFront-Series scanners are an integral element of Enterprise Content Management solutions. As front-end capture hardware components, the scanners’ reliability, performance, and feature-rich functionality are critical for ensuring the accuracy and overall effectiveness of any document management workflow.

Recognizing this, many of the industry’s leading software companies have tested Canon’s DR- and ScanFront-Series Scanners for compatibility with their products. With this compatibility, customers are ensured the reliability and benefits of a complete document management solution. Moreover, they have the flexibility of selecting a hardware product that will operate effectively with the software applications they are currently using or implementing.

With an extensive portfolio of DR- and ScanFront-Series scanners designed to target various business applications, customers are assured the best hardware product to suit their needs. From decentralized imaging and desktop scanning workflows to centralized batch processing of high-production workflows, Canon’s scanners are equipped to perform.

**EASY INTEGRATION AND COMPATIBILITY**

**INVESTMENT PROTECTION**

**Service and Support**

Canon imageFORMULA DR- and ScanFront series scanners are designed to provide customers with a rewarding ownership experience. These products are supported nationwide through a network of factory-trained and authorized Canon service providers. These providers attend Canon training classes on the latest products, service methods, and tools. They also have the latest information about the products they service, including technical documentation, and access to a service Website, and technical support hotline.

**Canon CarePAK**

The CarePAK® Extended Service Plan has been created to save you costs associated with post-purchase maintenance, maximize uptime throughout the life of your product, and make you feel confident in your Canon scanning investment for years to come.
