ADVANCE

Simply advanced.

Simply advanced.

In today's fast-paced, dynamic business world, the secure exchange of information is critical. And while the avenues by which we share this data are limitless, there comes the need to gather all these technologies together to optimize business processes.

Introducing the next-generation Canon imageRUNNER ADVANCE Series. As the core of virtually all digital business communications, this platform transcends workflow from a series of individual processes to a continuous, integrated flow of shared information.

Imaging and enterprise applications seamlessly converge. Cloud connectivity rests at your fingertips. Mobile print solutions move right along with you. And information sharing is rapid and safe. Now you can empower office users, business management, and IT departments to drive your organization to new levels of performance and productivity.

The next-generation imageRUNNER ADVANCE Series. From every point of view, it's simply advanced.

Design 4

People-Centric

An exceptionally intuitive, simple-to-use interface puts access to all functions right at your fingertips, whether at the device or at your desktop.

Workflow 6

Connected

Advanced technology and expansive enterprise applications work seamlessly with your device to deliver exceptional results.

Mobile

Even on the go, you're in control. Print from a laptop, tablet, or smartphone to an imageRUNNER ADVANCE device.

Collaborative

Freely exchange information with built-in document solutions that let you retrieve and edit files in archival and native formats.

Cloud-Enabled

A touch of a button on the user interface lets you access, scan to, or print documents directly from, certain cloud applications.

Control 8

IT-Friendly

Easily install new devices, track activity of an entire fleet, and monitor supply levels—right from your desktop.

Security

Relax. Multilayered solutions safeguard confidential information and, with certain options, support security compliance.

Performance 10

Versatile

It's your choice. From customized business solutions to software versatility, configure a device to extend your capabilities.

Brilliant

Get noticed with high-impact color or crisp black-and-white output, all delivered with amazing speed.

Responsibility 12

Eco-conscious

Reduce print-related energy consumption through Canon's advanced technologies and device management solutions.

Advanced **Design**

Designed for you.

Simple to use, highly responsive, and easily personalized, the imageRUNNER ADVANCE Series partners with individuals and workgroups to create a truly customized way to work.

Real inspiration and innovation.

Ever forward-thinking, Canon raises your ability to communicate, connect, and collaborate to new levels. Cutting-edge document solutions turn the imageRUNNER ADVANCE Series into a center of productivity for your business. Seamless integration with enterprise applications, cloud-based services, and mobile devices empower you to succeed—anytime, anywhere. And with the ability to streamline operations through a customized interface and tailored features, you'll work smarter, easier, and faster.

A very intuitive, customizable interface.

With you in mind, the next-generation interface incorporates even more customizable, simple-to-use, and streamlined features. Display your logo or unique graphics as the background of the Main Menu, where you access business-ready functions. Use the Quick Menu to power productivity via your personal workflows, combining and accessing routine tasks and job flows at the touch of a button. Even change the number and size of buttons to suit the way you work, and preview stored documents before you print them.

Engineered for adaptability.

Canon's next-generation imageRUNNER ADVANCE Series stays focused on the future. With effortless synergy between hardware and software solutions, these intelligent systems are the ideal choice to help you achieve your goals as your organization evolves. And because they're flexible, intuitive, and allow easy deployment of settings across your enterprise, targeted embedded applications can be added as your needs change.

A beautiful way to work.

The universal design supports features that make these devices easily accessible to all. Thoughtful touches, such as a light under the automatic document feeder, reflect Canon's consideration for the work styles and needs of all users. And, you'll enjoy a consistent, simple-to-use experience across every model in the Series with Canon's distinctive interface and uniform print driver.

Simply put, a better way to work.

With seamless connections, streamlined integration, and drag-and-drop simplicity, the new imageRUNNER ADVANCE Series lets you accomplish so much more in so much less time.

CLOUD-BASED

From your imageRUNNER ADVANCE device, you can scan to, access, or print documents directly from the cloud. In addition, business process workflows can be implemented on a cloud-based system.

WEB-READY

View Web pages directly from the device control panel. Just enter a URL to browse pages. Easily output Web pages and online PDFs.

MOBILE

Print from, and scan to, your mobile device at your imageRUNNER ADVANCE system.

Print to anywhere, from anywhere.

In today's increasingly mobile world, the next-generation imageRUNNER ADVANCE Series keeps your work flowing. A simple touch of a button on the user interface lets you access documents directly from the cloud. Print and scan from your laptop, iPad® tablet, and iPhone® or BlackBerry® smartphone. Safe authentication lets you print from anywhere within the network to any connected device, easily and safely.*

*May require optional accessories.

Save more time.

Simplify your workflow processes with intelligent tools. For complicated or repeated tasks, use Workflow Composer to create all-in-one buttons that can be registered in the Quick Menu. Distribute to multiple destinations in a single step. Scan and convert documents directly to Microsoft® Word® and PowerPoint®. And streamline the exchange of information with Advanced Box, Canon's unique, built-in document-sharing solution.

Integrate imaging and enterprise applications.

A new middleware technology effortlessly links enterprise applications, such as Oracle and SAP, with CRM systems like Salesforce.com or the ECM system of your choice. You can also combine your document-intensive workflows and processes with these applications. The streamlined workflow automates complex business processes and offers easy access to information, saving both time and money.

Do it all from your PC.

Enjoy even greater control and convenience right from your PC with the ability to manage, prepare, and monitor documents without even opening an application. Combine multiple formats, preview files, and select the finishing functions. With drag-and-drop simplicity, you can print, fax, and convert files to PDFs. Even check the status of your imageRUNNER ADVANCE system.

Advanced **Control**

True protection. Easy control. Real peace of mind.

Whether you manage a fleet of devices or a single unit, you have the power to configure a system, safeguard data, and maximize resources right at your fingertips.

Centralized, scalable control.

Canon's advanced device management tools keep you in charge at every step, right from your desktop and even through the cloud. Easily install and replace devices, migrate settings and data to new devices, and distribute applications and settings across your network. Track your entire fleet's activity to learn when supplies are low or service is needed. New cloud-based tools further reduce costs, improve serviceability, and secure data.

Easy-to-use, secure access.

Whether you're a small office or a large enterprise, you'll find that the imageRUNNER ADVANCE Series' serverless print environment offers cost-effective, efficient solutions that help safeguard your data. Users can print to any connected MFP or SFP, and retrieve their documents after log-in authentication at the device. Administrators can dramatically limit data leakage by tracking use by individual or department.

Privacy and protection.

Canon's multilayered security solutions offer you peace of mind. At every step, the imageRUNNER ADVANCE Series safeguards information. HDD Erase removes latent images from hard drives after each task. A security chip with tamper-resistant hardware protects passwords and encryption keys. IPsec secures data as it traverses the network. And HDD Lock and optional HDD Data Encryption help protect information even after hard drive removal.

Maximize your resources.

Optimizing resources is key to saving money and protecting the environment. Luckily, it's a snap to track, manage, and influence user behavior with the imageRUNNER ADVANCE Series. From analyzing color output by employee or client to enforcing double-sided printing, you can ensure that resources are employed intelligently. The system can also route jobs to the most cost-effective device.

Advanced **Performance**

Part of a very smart growth strategy.

Faster and more powerful, the imageRUNNER ADVANCE Series is a center of outstanding productivity for any business.

Make a brilliant impression.

Give your business a competitive edge by producing professional-quality presentations, reports, and newsletters. Through Canon's state-of-the-art imaging technology and toner, image quality is stunning. You can easily generate accurate, high-impact color or crisp black-and-white results on demand. Canon's proprietary ZIMA chip offers superb, high-quality copies. And with the extensive array of finishing capabilities available on the imageRUNNER ADVANCE Series, the possibilities are virtually endless.

Powerful performance.

At the heart of the imageRUNNER ADVANCE systems is their ability to concurrently process enormous volumes of data. Canon's Advanced imageCHIP architecture makes this possible. Two dedicated processors work together to accomplish multiple tasks simultaneously, with the exceptional speed your work demands.

Lots of uptime.

Canon incorporates its signature reliability into every imageRUNNER ADVANCE model. With minimal warm-up time, devices start up promptly, even when they're completely shut down. Status notifications keep you ahead of the game, and toner can even be replaced on the fly. If the correct paper for a job is unavailable, the system begins the next job without delay. And with access to the latest technology and upgrades, you'll realize optimal performance.

Efficient document publishing.

The imageRUNNER ADVANCE Series offers advanced job and color management capabilities that streamline your workflow and ensure outstanding results. With "drag-and-drop" simplicity, you can easily merge, edit, or reassemble content from several sources into a single, cohesive document. Preview jobs at the device or at your desktop before they're printed, and easily monitor print jobs from submission to completion. With the ability to retain settings, documents are reprinted with great consistency and speed.

Strong commitment. Eco-conscious solutions.

The imageRUNNER ADVANCE Series incorporates innovative, eco-conscious solutions that propel your business while reducing your environmental footprint.

A responsible way to work.

Canon knows that the workplace needs a greener workflow. And the next-generation imageRUNNER ADVANCE Series delivers just that. Even when you're seamlessly sharing and distributing digital documents with organizations around the globe, you're in control of precious resource consumption. This Series lets you use only the paper, toner, and energy you need to help decrease your environmental footprint.

DUPLEX PRINTING

With centralized control, you can reduce waste, cut energy consumption, and limit users to printing only duplex and black-and-white documents.

ENERGY STAR® RATED

The imageRUNNER ADVANCE models are designed for low energy consumption. Each model meets ENERGY STAR® standards.

SECURE AUTHENTICATION

Reduce paper waste with secure authentication. Check jobs being processed before they're printed and output jobs only when you're at the device.

Eco-conscious design.

Canon is making a difference through creative, ecological thinking. The next-generation imageRUNNER ADVANCE models employ certain components fabricated with 100% recycled plastic from retired products. Canon's innovative green technologies also include bio-based plastic, a plant-derived compound that replaces certain petroleum-based plastic parts.

Greater energy efficiency.

From the inside out, the imageRUNNER ADVANCE Series is designed for high energy efficiency and stellar performance. The combination of fusing technologies and low-melting-point toner helps lower overall energy consumption by minimizing power requirements and reducing energy use during warm-up and while in stand-by mode.

Reducing CO₂ emissions.

Through its Life Cycle Assessment (LCA) System, Canon has lowered CO₂ emissions by focusing on each stage of the product life cycle, including manufacturing, energy use, and logistics. These products are designed to be the smallest and lightest in their class, with less packaging to make transportation more efficient.

Reducing pollution.

All Canon suppliers are required to meet Canon's stringent Green Procurement policy and environmental terms. This helps the company exceed the toughest global standards set by the EU RoHS Directive, which restricts the use of certain hazardous substances.

Simply advanced.

Whether you're a small business or a global enterprise, the next-generation imageRUNNER ADVANCE models will become a vital part of your organization.

Each system is a dynamic communications hub that marries business processes with document-driven workflow. With both cloud and mobile solutions, users can become more effective anywhere, anytime. And intuitive, simple-to-use operation helps to ensure that everyone can accomplish spectacular work in far less time.

Experience the extraordinary standards of quality, security, and performance that you've come to expect from Canon. Experience imageRUNNER ADVANCE.

Light Production/CRD Solutions

BLACK AND WHITE

imageRUNNER ADVANCE
8205/8295/8285

High black-and-white speeds and color scanning for high-volume light production/CRD environments

Print speed (letter):	8205:	Up to 105 ppm
	8295:	Up to 95 ppm
	8285:	Up to 85 ppm

Paper capacity:	4,200 sheets standard; 7,700 maximum
------------------------	---

Paper size:	13" x 19-1/4" maximum
--------------------	-----------------------

Print resolution:	1200 x 1200 dpi
--------------------------	-----------------

Scan speeds:	Up to 200/100 ipm (300 dpi) (BW/Color, Duplex)
---------------------	---

Office Solutions

BLACK AND WHITE

imageRUNNER ADVANCE 6275/6265/6255

High black-and-white speeds and color scanning for large office workgroups

Print speed (letter): 6275: Up to 75 ppm
6265: Up to 65 ppm
6255: Up to 55 ppm

Paper capacity: 4,200 sheets standard;
7,700 maximum

Paper size: 11-3/4" x 19-1/4" maximum

Print resolution: 1200 x 1200 dpi

Scan speeds: Up to 200/100 ipm (300 dpi)
(BW/Color, Duplex)

COLOR

imageRUNNER ADVANCE C5255/C5250/C5240/C5235

Compact yet powerful color for workgroup environments

Print speed (letter, BW, color): C5255: Up to 55/51 ppm
C5250: Up to 50/45 ppm
C5240: Up to 40/35 ppm
C5235: Up to 35/30 ppm

Paper capacity: 1,200 sheets standard;
5,000 maximum

Paper size: 12" x 18" maximum

Print resolution: 1200 x 1200 dpi

Scan speeds: Up to 120 ipm (300 dpi)
(BW/Color, Duplex)

COLOR

imageRUNNER ADVANCE C2230/C2225

For busy workgroups that demand efficient workflow in a compact space

Print speed (letter, BW, color): C2230: Up to 30/30 ppm
C2225: Up to 25/25 ppm

Paper capacity: 1,170 sheets standard;
2,270 maximum

Paper size: 12" x 18" maximum

Print resolution: 1200 x 1200 dpi

Scan speeds: Up to 51 ipm (300 dpi)
(BW/Color)
