SOFTWARE SOLUTIONS

Extend the value of imageRUNNER ADVANCE technology
with Nuance eCopy document imaging solutions.

 meap
POWERED BY I

Exchange information with ease.

Encourage paper-to-digital workflow behavior.

Improve team collaboration and access to information.

Control your documents—markups, security, distribution, and more!

eCopy Document Imaging Solutions

Energize productivity. Simplify collaboration.
Scalable document distribution solutions built for growth.

Whether you're looking to jump-start individual, department, workgroup, or enterprise productivity, there's an eCopy solution that fits your needs.

A solution for every need

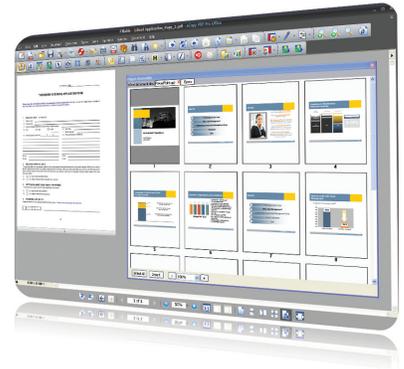

Personal Productivity: eCopy PDF Pro Office allows office workers to collaborate with PDF files like never before from their desktop—giving them full control over their personal document imaging needs.

Document Processing and Automation: eCopy ShareScan Suite provides robust capabilities for kick-starting business processes directly at the device, ensuring accuracy and eliminating misfiling.

General Office Collaboration: eCopy ShareScan Office boosts team productivity with a complete document imaging solution, right through to process integration.

Uniform Enterprise Scanning: eCopy ShareScan Elements delivers a core scanning platform for an entire workplace, along with the flexibility to add functionality when needed.

PDF productivity to optimize personal effectiveness.

eCopy PDF Pro Office, an enterprise-capable PDF solution, allows office workers to create, convert, and collaborate with PDF like never before, achieving maximum productivity.

Personal PDF Productivity

Designed specifically for the business user, eCopy PDF Pro Office, a desktop software application, is intelligent and easy to use, putting commonly used creation, conversion, and collaboration features just a click away.

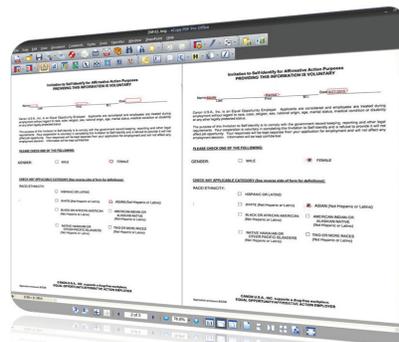

Instantly create universally viewable PDFs files, including PDF and PDF/A versions. Or convert static PDF documents into editable files and useful information.

This solution has capabilities that will make a user excited to work more efficiently, including the ability to convert a PDF to audio, merge multiple files, generate fillable forms, create graphic layer management, and embed multimedia.

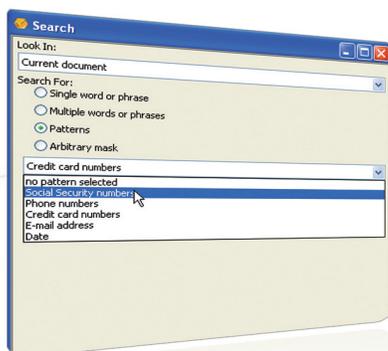

eCopy PDF Pro Office lets you enjoy incredible time-savings and the flexibility of a universal document format that helps to bring enterprise performance to an all-time high.

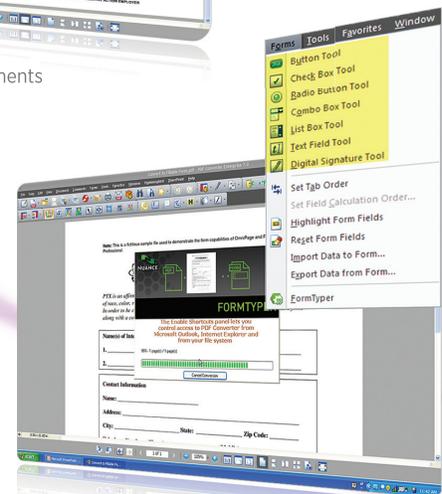

Simply convert non-editable data to editable information

Easily compare documents side by side

Scan, search, and modify—all in a single step

Transform static forms to electronic fillable forms

Secure distribution to elevate enterprise endurance.

With eCopy ShareScan, office workers can use their Canon system to scan documents securely, while kicking off workflows that seamlessly integrate into their business applications and improve access to information.

A Suite of Capabilities

eCopy ShareScan Suite is Canon's go-to "scan-to-process" solution. You can scan, extract, classify, index, and convert paper information into digital information that flows effortlessly into, and through, the electronic channels of your business, allowing you to start and finish your everyday tasks directly from your Canon device.

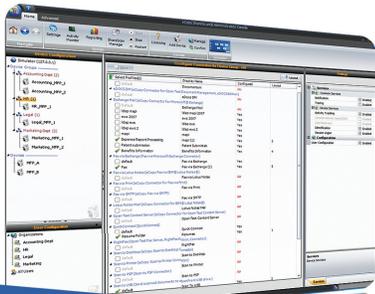

The Office Essentials

eCopy ShareScan Office is the core capture solution that moves hard-copy documents into electronic office workflows. It efficiently captures paper-based information and transforms it into editable data, eliminating the need to re-key, distribute, or archive hard copies.

The Elements of an Enterprise

eCopy ShareScan Elements is the ideal solution for mid-size and large companies that want to standardize using eCopy ShareScan throughout the enterprise. This package contains the basic scan function and is designed to let companies add on the needed connectors and extenders.

eCopy ShareScan Connectors and Document Extenders

Customized connectivity to automatically kick-start workflows.

eCopy ShareScan Connectors

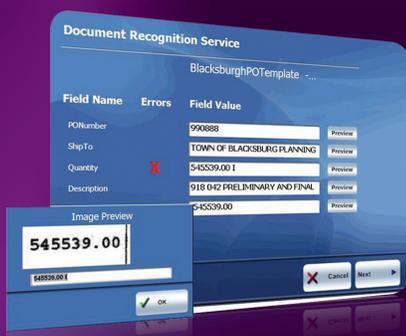

eCopy ShareScan Connectors link your eCopy-enabled Canon device to your highly-utilized business applications, giving you the ability to scan directly into your repository. This enables your organization to implement custom document distribution that increases business process efficiency.

A wealthy portfolio of eCopy and third-party-developed connectivity solutions for eCopy ShareScan

eCopy ShareScan Document Extenders

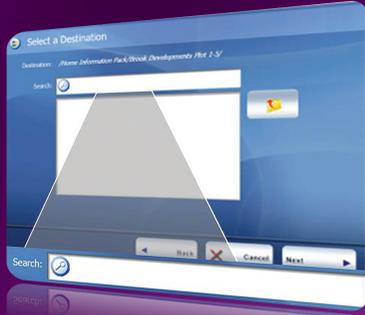

eCopy ShareScan Document Extenders add robust document automation capabilities to eCopy ShareScan, giving speed to a wide range of paper and digital document workflows. With these extenders, you can easily perform on-the-fly actions to the scanned image, such as zonal OCR, image clean-up, blackouts, highlighting, and more, to automate document processes.

eCopy Forms Processing Extender
Allows you to input forms directly into your application from your Canon device. Automating the processing of paper forms can accelerate business workflows, reduce errors, and cut costs significantly.

eCopy Highlight and Redact Extender
Uses simple keyword-driven searches to make permanent markups such as blackouts, highlights, and strikethroughs while at the device interface. This eliminates the need to go back to the desktop to manually apply these markups.
