Redefining excellence.

**Image Quality**
- True digital printing with unique Océ DirectPress technology
- Up to 200-lpi for a high level of grayscales
- Océ ScreenPoint—Optimal quality, less operator intervention

**Ease of Use**
- PRISMAasync Controller—Intuitive, easy-to-learn interface
- Océ Paper Logic for first-time-right output
- Synchronized settings across the entire system
- Advanced Job Management and Editing
- Easy integration into existing workflows—DPlink, KDlink

**Perfect-Fit System**
- Up to 135/120/110 ipm (duplex)
- Post-process document insertion*
- Full-bleed saddle finishing*
- High-capacity stacker*
- Z-fold, C-fold, Accordion fold, Half-fold, Double-parallel fold*

**Sustainability**
- Ozone-free printing
- EPA ENERGY STAR® 2.0 certified
- Reduced energy usage with Océ HeatXchange
- Smart energy usage with Océ EnergyLogic

**Productivity**
- Fast start-up with Océ EnergyLogic
- Plan-ahead production with intelligent Job Scheduler
- Operator Attention Light* warns ahead for uninterrupted production
- Maximum uptime with Printer Operation Care
- 50-300 gsm duplex, all trays
- Up to 12,000-sheet input capacity**

---

* Optional.
** Maximum letter capacity with ePIM with Dual Tray option.
The Canon varioPRINT DP Line raises the bar on efficiency, versatility, sustainability, and image quality. Designed from the ground up to deliver robust, reliable performance.

Imagine a new, highly stable technology that always delivers consistent, quality images. A truly digital technology—that doesn’t require high temperatures and electrical charges. A high-speed production technology that produces zero ozone emissions.

The varioPRINT DP Line is based on the Océ DirectPress technology—an exceptionally stable imaging technology that removes variables that can negatively affect print quality and consistency. Combine this with PRISMAsync operations management and Canon in-line finishing for an end-to-end solution that rewrites the rules for image consistency, intuitive operation, system configurability, and performance uptime. The varioPRINT DP Line is ideal for In-plants and CRDs that require a sustainable solution that’s extremely versatile, reliable, and easy to operate. And it’s also a great fit for small- to mid-size commercial printers with high quality and high uptime needs.

This model will help you cut costs, reduce your environmental footprint, and expand your capabilities and business opportunities. It simply redefines excellence in black-and-white production printing.

CANON varioPRINT 135 WAS AWARDED FIVE STARS FOR IMAGE QUALITY BY BUYERS LABORATORY***

The varioPRINT 135 has been awarded a five-star rating for image quality, job submission, ease of use, and preflight and job preparation by Buyers Laboratory Inc. This model was subjected to intense custom tests consisting of 87,841 A4-sized impressions spanning 10 different media types. This was the first time a device has received a five-star rating for image quality since BLI began the field testing of production units.

*** BLI testing was done on the original Océ-branded VarioPrint DP Line in 2011. Field test report published in 2012. Since then, the product has been rebranded “Canon varioPRINT.” While the branding has changed, the product is the same.
True end-to-end solution

PRODUCTION PERFORMANCE

TRUE DIGITAL PRODUCTION
Océ DirectPress converts digital data into a toner image in a single step, providing a uniform and stable image. With both zero ozone emissions and a lower fusing temperature, DirectPress helps reduce the impact of your business on the environment.

PERFECT-FIT SYSTEM
One compact system fits your business needs, from preprinted inserting and high-capacity stacking, folding, and punching to stapling and booklet-making. The varioPRINT DP Line delivers professionally finished documents in one integrated, end-to-end system for hands-off production workflows.

EASY WORKFLOW INTEGRATION

CONFIGURABLE WORKFLOW SUPPORT
Choose the PRISMAsync processing modes that fit your current workflow and add options as needed. When your workflow requirements change or grow, additional Océ PRISMA software modules can be added to increase system performance and improve overall production management.

PRISMA SOLUTIONS
Designed for full integration with Océ PRISMA solutions to accelerate your workflow, reduce costs, and attract more print volume.

PROTECT YOUR PREVIOUS INVESTMENT
PRISMA sync options DPlink and KDKlink let you easily integrate varioPRINT DP Line models into Xerox® FreeFlow® MakeReady and Kodak® Smartboard environments, without losing job ticket settings* or media attributes.

* Not all job ticket features are supported on all engine configurations.
Offset image quality and consistency

OUTSTANDING IMAGE QUALITY

OCÉ SCREENPOINT TECHNOLOGY
Reproduce color halftones and photographs as grayscale images with excellent resolution, dense black fills, and precise fine lines. Adjust contrast and control darkness and lightness, without sacrificing any detail.

GREAT OUTPUT ON A WIDE RANGE OF MEDIA
Océ DirectPress technology's low fusing temperature allows you to print on a wide range of media. The image is pressed directly into the paper, so you can use structured or textured stock.

OCÉ IMAGE LOGIC
Automated intelligence recognizes photo and text elements on every scanned page, so print quality can be adjusted to deliver optimal results.

IMAGE CONSISTENCY

OCÉ DIRECTPRESS TECHNOLOGY
DirectPress technology helps eliminate the processing steps that allow for deterioration of quality over time. It also helps ensure consistent, high-quality printing on a wide range of media across jobs, systems, and time. The result is predictable, offset-like output without streaks, striping, or banding.

ADVANCED ACTIVE REGISTRATION
An intelligent, sensor-controlled process enables tight, front-to-back registration, helping ensure that you can handle the high-visibility, quality-intensive jobs that your customers need.

MONOCOMPONENT TONER
All substances needed for printing are present in each and every toner particle. There's no developer needed and no risk of degradation over time, helping deliver consistently high-quality prints.
Sustainable productivity

The Canon varioPRINT DP Line’s innovative technologies deliver true digital printing, energy efficiency, and integrated workflow that ramp up your business for profitability.

**OUTPUT AND FINISHING**

1. **BOOKLET TRIMMER MODULES***
   Used with the Saddle-Stitch Finisher to produce professional, full-bleed booklets in-line.

2. **SADDLE-STITCH FINISHER***
   Stitches up to 25 sheets,** up to 13" x 19.2" , for creation of 100-page booklets. V-fold and nest up to five sheets without saddle-stitching.

3. **FOLDING UNIT***
   In-line folding.

4. **HIGH CAPACITY STACKER-G1***
   High-capacity stacking of flat sheets for efficient transfer to off-line finishing or shipping departments.

5. **PROFESSIONAL PUNCHER AND INTEGRATION UNIT***
   Interchangeable die sets provide a variety of punch patterns, and the Integration Unit ensures delivery in correct orientation to other finishing modules.

6. **MAX RING BINDER MB-1000C***
   Produce up to 50- or 100-sheet ring bound booklets in-line to eliminate the handling and finishing steps between printing and binding.

7. **SDD SQUARE FOLD BOOKLET MAKING SOLUTIONS***
   Provide professional, square-folded booklets that are ideal for a wide range of on-demand applications.

**IMAGING**

6. **OCÉ HEATXCHANGE TECHNOLOGY**
   Printed sheets are cooled and those to be printed are preheated in a single process, reducing energy consumption by up to 30%. And already-cooled printed sheets help reduce curling and sticking for more reliable finishing.

7. **OCÉ ENERGYLOGIC TECHNOLOGY**
   As soon as sufficient energy is available, start-up is quick. It also helps ensure non-stop productivity for mixed-weight jobs.

8. **OCÉ DIRECTPRESS TECHNOLOGY**
   Converts digital data into a toner image in a single step, with no ozone emissions, fuser oil, or developer, and virtually no toner waste.

* Optional
** 20 lb. Bond
*** Not shown. For more details on these finishers, please see finisher specific brochures.
PRODUCTIVITY AND USABILITY

9 OPERATOR ATTENTION LIGHT
Displays status of the press in a convenient way, so the operator quickly knows that production is moving smoothly.

10 OCÉ SCREENPOINT TECHNOLOGY
Optimizes the conversion of color images to black and white and generates smooth grayscale transitions.

11 PRESS CONSOLE
The award-winning PRISMA interface. Optimize productivity with a high-performance server, green-button ease of use, a media-driven workflow, and up to eight hours of production planning.

FEEDING

12 DOCUMENT INSERTION UNIT
Enables insertion of color covers and inserts.

13 PAPER CAPACITY
The 4,000-sheet input is standard, with the ability to scale up to 12,000 sheets. All trays accommodate all supported media weights.

14 ADVANCED FEEDING TECHNOLOGIES
Air Separation and Suction Feeding features provide reliable, accurate paper feeding, similar to offset press printing.

* Optional
** 20 lb. Bond
† Maximum letter capacity with ePIM with Dual Tray Option.
Ease of use

INTUITIVE WORKFLOW
Operators get intuitive workflow for immediate control and management of even the most complex jobs.

USER-FRIENDLY OPERATION
One integrated user interface combines the functionality of a digital front-end with the engine controller, simplifying production steps for even the most complex jobs. Its intuitively designed touch-screen helps minimize learning curves, reducing time and money spent on training.

EFFICIENT PRODUCTION MANAGEMENT
Accelerate turnaround times with up to eight hours of plan-ahead production. The Job Scheduler provides operators with the ability to monitor multiple jobs, receive custom notifications, and change priorities as needed. Visible from a distance, the Operator Attention Light signals upcoming operator interventions, such as media and consumable refills, giving you time to avoid interruptions in production.

PRISMASYNC REMOTE MANAGER
Operators and administrators can manage queues, submit print jobs, and reroute jobs among multiple PRISMAsync-driven engines via the standard PRISMAsync Remote Manager software. The unique, Web-based multiengine scheduler provides remote monitoring from virtually any workstation or mobile device on your network.

EASY AND EFFICIENT MEDIA HANDLING
A media-driven workflow with a customized, define-once media catalog helps deliver consistent and productive media handling. Océ Paper Logic helps ensure correct media loading, even with preprinted or prepunched stock, helping to reduce errors and waste for first-time-right output.

UNIFORM, CONSISTENT OPERATION
PRISMAsync’s single operating concept simplifies job handling for printing, scanning, and copying. This helps reduce training requirements and increase productivity. Operators can spend less time running the press and managing output, allowing the production staff to be utilized more effectively.

ADVANCED JOB MANAGEMENT AND EDITING
Page Programming* features in print queues, DocBox,* and subset scanning and copying let operators store and manipulate jobs on the PRISMAsync controller interface without having to push back on prepress, which can save costly time.

* Optional
VERSATILITY FOR YOUR BUSINESS

PERFORMANCE THAT FITS
With duplex print speeds of up to 135, 120, and 110 images per minute, the varioPRINT DP Line can be easily configured to meet your requirements. Use it to fit your needs from scanning to printing and intelligent prepress to full, in-line production. Or you can replace multiple existing machines with a single, all-digital multipurpose production device.

MULTIPLE SCANNING OPTIONS
Monochrome and color scanning capabilities let you offer services beyond black-and-white workflows. One-pass duplex scanner options include Scan-to-SMB, Scan-to-FTP, Scan-to-USB, Scan-to-E-mail, and Scan-to-DocBox, a repository of jobs that provides fast storage and access to jobs that may need to be rerun at a later date.

VERSATILE PAPER FEED
Four paper trays are conveniently placed under the engine, conserving valuable floor space. And an optional four-tray module expands capacity up to 12,000 sheets* for hours of unattended production. It features automatic sheet-size detection in all trays and air separation and suction feed for productive, reliable feeding.

WIDE RANGE OF MEDIA
The varioPRINT DP Line can accommodate substrates ranging from 14 lb. Bond to 110 lb. Cover (50—300 gsm) in all trays, with automatic duplexing for all media up to 300 gsm, this provides efficient production on a wide range of media.

STREAMLINED FUNCTIONALITY
In-line finishing modules eliminate the need for costly, space-consuming, off-line equipment and help you to produce and finish more jobs without operator intervention. This shortens the time to complete a job, thus helping you to meet even the tightest deadlines.

* Maximum Letter capacity with ePIM with Dual Tray option.
Productivity

MORE THAN JUST SPEED

CONSISTENT PERFORMANCE
Unlike competing systems, the varioPRINT DP Line uses Océ EnergyLogic to measure the fusing requirements of incoming media and then adjusts the fusing and print speeds so they match. This helps allow for non-stop productivity on mixed media jobs.

START PRINTING IMMEDIATELY
Océ EnergyLogic also enables the system to start printing as soon as sufficient power is available. The system gradually accelerates until it’s fully warmed up.

TOTAL PRODUCTION CONTROL
PRISMAasync provides intelligent job scheduling controls for uninterrupted production and smooth workload planning. The display shows the complete production schedule, indicating when each job will be finished. It also provides color-coded alerts to inform operators of upcoming requirements, such as toner or media refills, to help keep production moving.

DESIGNED FOR SUSTAINABILITY

CLEANER, GREENER, AND OZONE-FREE
The varioPRINT DP Line is designed to help lower your environmental impact and help reduce consumption of energy and resources. The streamlined printing process—with no electrical charge used—provides a cleaner work environment, without ozone emissions, selenium, fuser oil, or developer, and virtually no toner waste or particle emissions.

CLOSING THE ENERGY LOOP
Océ HeatXchange makes clever use of energy by recycling the heat used to fuse toner onto paper to preheat incoming sheets, reducing energy consumption by up to 30%. The low fusing temperatures also allow the machine to run cooler, further reducing energy consumption.

SMARTER ENERGY USE
Océ EnergyLogic’s smart balancing of required and available energy provides a fast first-print/copy-out time by starting to print as soon as sufficient power is available. And for mixed media jobs, the machine will stop only to adjust the speed if needed. The result is a little extra productivity every day, saving time as well as energy.

FIRST-TIME-RIGHT OUTPUT
Easy operation, reliable media handling, and Océ Paper Logic are just some of the features that help reduce waste by maximizing first-time-right prints.

BUILT TO LAST
Much of the steel used in these systems is recycled, and main parts are designed to last the life of the machine. This helps to conserve resources, reduce waste, and limit the environmental impact of both logistics and service.
Reliability

DEPENDABILITY BUILT-IN

OCÉ DIRECTPRESS ADVANTAGE
The absence of lasers, LEDs, and related components removes variables that can deteriorate over time. This improves image consistency and helps simplify and reduce maintenance and service. The result is increased reliability and high system uptime.

TAKE CONTROL OF YOUR UPTIME
No service call is the best service call. You can increase your uptime by taking advantage of the Printer Operation Care program. Requiring no training, this program allows operators to replace certain parts themselves in an easy and secure way. When service intervention is needed, an innovative service concept helps ensure the shortest turnaround time.

DESIGNED FOR SUCCESS
The varioPRINT DP Line is designed from the ground up for the robust, reliable performance needed in today’s print shops. Each model offers powerful features and options that let you turn demanding, time-sensitive jobs more easily and help keep your customers coming back.
**SPECIFICATIONS**

### MAIN UNIT

**Marking Engine**

- **Technology:** DirectPress
- **Print Resolution:**
  - Engine: 600 x 2400 dpi, 200 lpi
  - PCL: 600 x 600 dpi
- **Simplex Print Speed (ipm):**
  - 120/110/100 (Letter)
  - 135/120/110 (Letter)
- **Duplex Print Speed (ipm):** 70/63/57 (11" x 17")
- **First-Copy-Out Time:** 3.9 Seconds (Letter)

**Paper Size**

- **Minimum:** See paper capacity for IPM and ePIM
- **Maximum:** 12.6" x 19.2"

**Standard Paper Capacity (IPM):**

- 2 x Bulk Tray: 1,500 Sheets (Letter, Statement*)
- 2 x MultiSize Tray: 500 Sheets from 3.5" x 7.75" to 12.6" x 19.2"**

**Paper Weight:**

- 14 lb. Bond to 110 lb. Cover (50 gsm to 300 gsm) (All trays)
- Up to 100 gsm (600 dpi)

**Duplex:**

- Up to 100 gpm (600 dpi)

**Power Source:**

- 208 V/20 A

**Dimensions:**

- 56.3" x 44.5" x 30.3" (H x W x D):
  - (1480 mm x 1130 mm x 765 mm)
- **Weight:** 579.8 lb. (263 kg)
- **Toner Yield:** 48,000 impressions***

### INPUT ACCESSORIES

**Color Image Reader - DT+ (Includes Single-pass Duplex Document Feeder)**

- **Capacity:** 300 Sheets (80 gsm)
- **Automatic Paper Size:**
  - Detection: Statement, Letter, Legal, 11" x 17"
  - Custom Sizes (ADF):
    - 5.3" x 5.0" to 17" x 12"
- **Resolution:** Up to 600 x 600 dpi
- **Scanning Speed:**
  - BW: Up to 120 ipm (300 x 300 dpi)
  - Color: Up to 100 ipm (600 x 600 dpi)
- **Power Source:** From Main Unit

**ePIM (External Paper Input Module) (Optional)**

- **Feeding Technology:** Air Separation, suction-Feeding
- **Standard Paper Capacity:**
  - 4,600 Sheets (20 lb. Bond)
    - Tray 1 and 2: 600 Sheets
    - Tray 3 and 4: 1,700 Sheets
  - 8,000 Sheets (20 lb. Bond)*
- **Acceptable Size:**
  - 5" x 8" to 12.6" x 19.2"
- **Paper Weight:**
  - 14 lb. Bond to 110 lb. Cover (50 gsm to 300 gsm)
- **Dimensions:**
  - (H x W x D):
    - 40.9" x 38.6" x 29.5" (1040 mm x 980 mm x 750 mm)
- **Weight:** 440.9 lb. (200 kg)

### DOCUMENT INSERTION UNIT-F1 (Optional)

- **Paper Capacity:**
  - 400 Sheets (200 x 2) (20 lb. Bond)
- **Paper Size:**
  - 11" x 17.9" (Maximum)
- **Paper Weight:**
  - 14 lb. Bond to 110 lb. Cover (50 gsm to 300 gsm)
- **Dimensions:**
  - (H x W x D):
    - 51.37" x 29.37" x 31.25" (1367 mm x 746 mm x 793 mm)
- **Weight:** 184 lb. (61 kg)
- **Power Source:** 120 V/15 A

### OUTPUT ACCESSORIES

**FINISHING ACCESSORIES**

**Booklet Trimmer-Di (Optional for Saddle Finisher-AK2)**

- **Margin Trimming:**
  - Top and Bottom Trim
- **Trim Amount:**
  - 0.08" to 0.78" (2 mm to 20 mm)
- **Trim Thickness:**
  - Up to 25 Sheets (50 Sheets Folded)
- **Waste Tray Capacity:**
  - 1,500 Sheets (Weight 0.78" trim (20 lb. Bond))
- **Paper Weight:**
  - 14 lb. Bond to 110 lb. Cover (50 gsm to 300 gsm)
- **Output Tray Capacity:**
  - 30 Booklets
  - **Dimensions:**
    - (H x W x D):
      - 47" x 62" x 30.37" (1,190 mm x 1,575 mm x 770 mm)
- **Weight:**
  - 335 lb. (152 kg)
- **Power Source:**
  - From Saddle Finisher

**Two-Knife Trimmer-D1 (Optional for Booklet Trimmer-D1)**

- **Margin Trimming:** Top and Bottom Trim
- **Trim Amount:**
  - 0.08" to 0.59" (2 mm to 15 mm)
- **Trim Thickness:**
  - Up to 25 Sheets (50 Sheets Folded)
- **Waste Tray Capacity:**
  - 750 Sheets (Two-sided Trimmed)
- **Paper Weight:**
  - 14 lb. Bond to 110 lb. Cover (50 gsm to 300 gsm)
- **Output Tray Capacity:**
  - 30 Booklets
- **Dimensions:**
  - (H x W x D):
    - 47" x 212" x 30.37" (1,190 mm x 536 mm x 770 mm)
- **Weight:**
  - 319 lb. (145 kg)
- **Power Source:**
  - 120 V/15 A

**Professional Puncher-B1 and Integration Unit-A1 (Optional)**

- **Paper Size:** Letter, Tab
- **Supported Media:**
  - 20 lb. Bond to 80 lb. Cover
- **Weights:** (75 gsm to 216 gsm)
- **Productivity:**
  - Same as Speed of Marking Engine
- **Chip Tray Capacity:**
  - 25,000 Sheets
- **Punch Patterns:**
  - 3H, 3H, Velobind TH4, Plastic CombBind, Twin Loop 2H/32H, ProClick 32H, Color Coil 44H
- **Dimensions:**
  - 47" x 22.5" x 31.25" (1,190 mm x 560 mm x 792 mm)
- **Weight:**
  - 264 lb. (120 kg)
- **Power Source:**
  - 120 V/15 A

**Paper Folding Unit-F1 (Optional)**

- **Double Parallel Fold:** Legal, Letter-R
- **C/Accord Fold:** Letter-R
- **Z-Fold:** 11" x 17"
- **Supported Media:**
  - 14 lb. Bond to 28 lb. Bond
- **Weights:** (50 gsm to 105 gsm)
- **Dimensions:**
  - 46.87" x 32.5" x 31.25" (1,190 mm x 826 mm x 792 mm)
- **Weight:**
  - 157 lb. (71 kg)
- **Power Source:**
  - From Finisher

**Tray 3: Maximum size up to 12.6" x 17".
***Estimated yield based on Letter pages at 6% coverage.
