Canon Document Scanner **DR-2010C/DR-2510C Easy Start Guide**

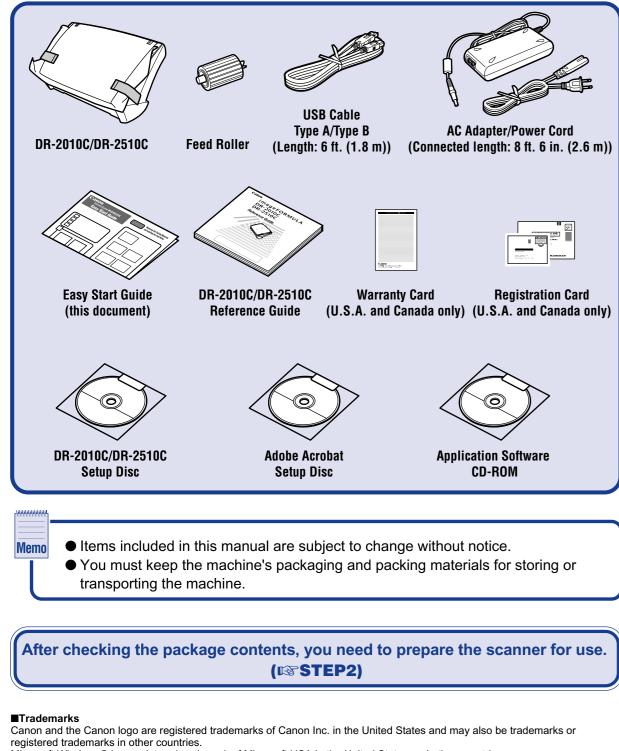

Thank you for purchasing the Canon DR-2010C/DR-2510C Document Scanner. The manuals for this scanner are made up of the "Easy Start Guide (this manual), "Reference Guide", and the digital manuals of the "User Manual" and "CapturePerfect 3.0 Operation Guide" included on the setup disk. Before you use this scanner, make sure to thoroughly read these manuals and understand them. After you have finished reading these manuals, store them in a safe place for future reference.

STEP Checking the Accessories

When you unpack your scanner, make sure that it contains all of the following accessories. If any of the items listed below are missing or damaged, contact your local authorized Canon dealer or service representative.

STEP 2 Removing the Packing Materials and Installing the Feed Roller

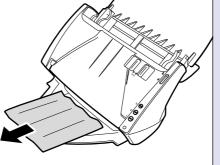

Remove the scanner from the box, remove the orange tape and protective sheets from the scanner, and install the feed roller on the scanner body.

1. Peel off the pieces of orange tape from the outer casing, and remove the protective sheets.

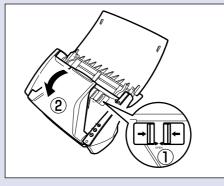

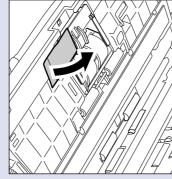

2. Open the document feed tray and the eject tray, and remove the protective sheet.

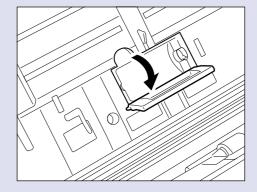

3. Open the front unit at (1) and (2), and remove the orange tape fastening the document holding guide.

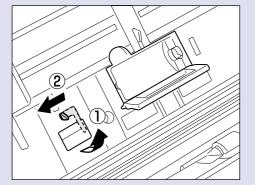

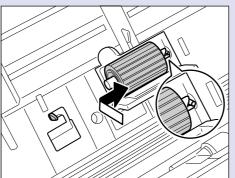

4. Open the roller cover.

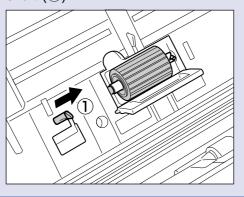

5. Lower the roller lock lever (1), and slide it towards the left (2).

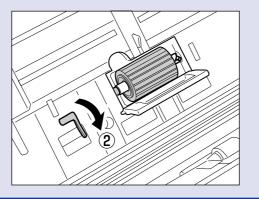

6. Load the feed roller, align the notch on the roller with the shaft on the scanner body.

7. Slide the roller lock lever to the right, fit the lever feed roller into the hole on the left of the roller (1), and push down the roller lock lever to lock the feed roller shaft (2).

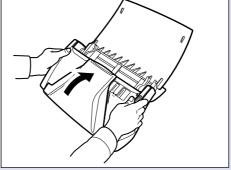

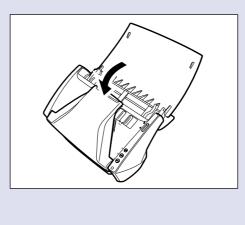

9. Gently push in the front unit on its left and right sides to close the front unit. Make sure that the front unit clicks into place.

10. Close the document feed tray.

The scanner is now ready for use. Next, you need to install the scanner software. (INSTEP3)
