DIGITAL MONOCHROME

The Canon varioPRINT 140/130/115 monochrome digital production presses offer a feature-rich base with scalable options for productivity. The VarioPrint TITAN Series systems, powered by PRISMAsync and paper feed technology, are designed for high-speed printing on a variety of media, including traditional offset coated stocks. This makes them ideal for productivity with the included features, choice of advanced print controllers, and scalable black-and-white, and color workflows.

CONTINUOUS FEED-capable for productivity with the included black-and-white, and color workflows.

DIGITAL MONOCHROME

These 2-4 Roll systems provide the print/copy/scan horsepower needed to make this unit a great fit for low-volume or mid-volume print producers requiring a versatile, productive platform capable of high-speed printing and copying. The Canon varioPRINT 140/130/115 monochrome digital production presses make this unit a great fit for low-volume or mid-volume print producers requiring a versatile, productive platform capable of high-speed printing and copying.

DIGITAL PHOTO/PRODUCTION

Canon's Production Photo Printer offers the retail photo printing services that you expect from Canon. This printer is designed to produce exceptional color output and print speeds of up to 57 ppm. It also offers a variety of security and mobile connectivity features, this handy scanner is ideal for businesses of all sizes.

INKJET PRODUCTION

The imageCLASS MF543dw offers increased efficiency with up to 48 ppm and the ability to print both one-sided and two-sided pages. It also offers a variety of security and mobile connectivity features, this handy scanner is ideal for businesses of all sizes.

DOCUMENT AND CHECK SCANNERS

The imageFORMULA DR-G1200H series is designed to support businesses of all sizes with its ability to process large volumes of documents. With a combination of performance and precision, the imageFORMULA DR-G1200H series is there for you day and night. Businesses can increase productivity by integrating the DR-G1200H series with their current systems. Print operations to optimal efficiency, enabling new applications.

SOFTWARE OFFERINGS

A variety of Canon software solutions are available to help businesses achieve their goals for cost reduction, increased efficiencies, while output management solutions deliver a variety of commands, such as tax functions and currency conversion.

OUTSOURCING SERVICES

Canon Information and Imaging Solutions, Inc. (CIIS) is a wholly owned subsidiary of Canon U.S.A., Inc. with a focus on content capture, management and automation — including Procure-to-Pay and Order-to-Cash systems. The team provides user training to help reduce new equipment system roll changes. These 2-4 Roll systems provide the print/copy/scan horsepower needed to make this unit a great fit for low-volume or mid-volume print producers requiring a versatile, productive platform capable of high-speed printing and copying. The Canon varioPRINT 140/130/115 monochrome digital production presses make this unit a great fit for low-volume or mid-volume print producers requiring a versatile, productive platform capable of high-speed printing and copying.

PROFESSIONAL SERVICES

The Professional Services team provides a comprehensive set of services that help businesses achieve their goals for cost reduction, increased efficiencies throughout their organization.

SOLUTIONS SUPPORT SERVICES

The team backed by Six Sigma experts and best-in-class technology help improve business agility, and digital transformation, and helps businesses achieve their goals for cost reduction, increased efficiencies throughout their organization.

CONSUMER SOLUTIONS

Solutions Support Services
