NEW PRODUCT GUIDE
EOS • EF LENSES • POWERSHOT
usa.canon.com/consumer
65-point* All Cross-type AF System

The advanced 65-point* all cross-type AF system helps ensure precise and stable AF no matter the subject’s or camera’s orientation. These AF points are spread over a wide area of the frame, enabling faster AF wherever the subject lies. With a central dual cross-type AF point of f/2.8, AF is enhanced with lenses faster than f/2.8. Also, this new system makes AF possible in dim lighting as low as EV -3 (center point only).

Up to 10.0 fps Continuous Shooting

A new, rugged shutter designed for 200,000 cycles, enables the EOS 7D Mark II camera to shoot up to 10.0 frames per second to capture all the action. Refined mechanics like a newly designed, more efficient shutter drive motor and a vibration dampened mirror drive help deliver reliable, speedy performance for high caliber image capture.

20.2 Megapixel CMOS Sensor

A brand new 20.2 Megapixel sensor helps record high-resolution image files with stunning detail. Redesigned specifically for the EOS 7D Mark II camera, this impressive sensor captures a new level of clarity with low noise and high sensitivity. Phenomenal for stills, the camera’s sensor is equally impressive for movies, offering Canon’s revolutionary Dual Pixel CMOS AF for impressive and smooth AF performance.

---

FUEL YOUR CREATIVE PASSION

Optimized to help make even the most challenging photographic situations effortless, Canon’s EOS 7D Mark II camera has a winning combination of cutting-edge operations and a robust, ergonomic design. A newly designed 20.2 Megapixel APS-C CMOS sensor, Dual DIGIC 6 Image Processors – plus a host of new and refined capabilities make the EOS 7D Mark II the perfect camera to bring your imagination to reality.

---

* The number of available AF points, and whether single line or cross-type, varies depending on the lens.
**Enhanced AF & Exposure**

Canon’s Intelligent Tracking and Recognition system (ITR AF) detects and tracks subjects, automatically switching the AF point to optimize tracking. It recognizes faces and colors, making the EOS 7D Mark II camera’s predictive AI Servo AF III effective (AI Servo AF III assists in focus tracking subjects continuously as they move). The Intelligent Subject Analysis (ISA) system employs an independent RGB+IR light sensor with approximately 150,000-pixel resolution for precise accuracy. When combined with ITR AF, the EOS 7D Mark II camera tracks subjects with significant success. The RGB+IR sensor also enables infrared-light detection and a flicker detection system that compensates for flickering light sources, taking shots only at peak light volume.

**Dual DiGIC 6 Image Processors**

The EOS 7D Mark II camera’s sensor works seamlessly with a pair of DiGIC 6 Image Processors for supercharged processing. These Dual DiGIC 6 Image Processors help the EOS 7D Mark II camera capture up to 1090 JPEG/LARGE, 31 RAW, and 19 RAW+JPEG shots* in a single burst for amazing action photography. They also enable the camera’s powerful image processing on-the-fly: lens aberration, variances in peripheral illumination, and image distortion can all be corrected in real time with the Dual DiGIC 6 Image Processors.

* Figures apply to a UDMA mode 7, CF card based on Canon’s testing standards.

**Full HD 60p Video Recording**

The EOS 7D Mark II camera delivers refined and detailed EOS movie image quality with Full HD 60p (59.94 fps NTSC), and 50.00 fps (PAL), recording at ISO values up to 16000 (Dual Pixel CMOS AF is not available when shooting at 60p). At these frame rates, even a fast-moving subject looks smooth in HD, as does a slow motion playback.

**Dual Pixel CMOS AF & Customizable Movie Servo AF**

Canon’s revolutionary Dual Pixel CMOS AF enables superb HD video shooting. With the EOS 7D Mark II camera’s Dual Pixel CMOS AF, each pixel on the camera’s sensor performs both phase-difference detection autofocus and records light. Autofocus is achieved quickly, easily and smoothly thanks to phase-difference detection AF. A new customizable Movie Servo AF system is available thanks to its Dual Pixel CMOS AF. AF points, AF speed, and tracking interval can all be manually specified and tailored to the particulars of the subject’s actions for continuous, smooth focus transitions. Customizable AF parameters give videographers more creative control, and opens up opportunities to create their videos just the way they envision.

**Fuel Your Creative Passion**

- 20.2 Megapixel CMOS (APS-C) sensor and ISO 100–16000 (expandable to H1: 25600, H2: 51200) for reduced noise at high ISOs and high performance Dual DiGIC 6 Image Processors for outstanding image quality and processing speed.
- High speed continuous shooting up to 10.0 fps allows you to capture fast action.
- 65-point† all cross-type AF system for high-performance, accurate subject tracking with EV -3 sensitivity (center point) for focusing in extreme low-light conditions.
- Canon’s innovative Dual Pixel CMOS AF enables you to shoot video like a camcorder with smooth, fast, and accurate autofocus and lets you enjoy instant and precise autofocus even when shooting stills.
- Stunning Full HD video with Custom Movie Servo AF (speed and sensitivity) for continuous focus tracking of moving subjects, multiple frame rates including Full HD recording at 60p in MOV and MP4 formats and uncompressed HDMI out.

**Built-in Interval & Bulb Timer**

Built-in features make it easy and convenient to achieve creative imagery without additional accessories. The interval timer takes from 1 to 99 shots at preselected intervals, while the bulb timer keeps the shutter open for a designated amount of time.

**Kit Contents**

- EOS 7D Mark II Digital SLR Body
- Eyecup Eg (not shown)*
- Wide Neck Strap
eos.usa.canon.com/eos

* Also available as optional accessory.
†† In certain countries and regions, the use of GPS may be restricted. Therefore be sure to use GPS in accordance with the laws and regulations of your country or region. Be particularly careful when traveling outside your home country. As a signal is received from GPS satellites, take sufficient measures when using in locations where the use of electronics is regulated.
* Includes EOS 7D Mark II Digital SLR Body, Eyecup Eg (not shown)*, Wide Neck Strap, EOS Digital Solution Disk, Camera Instruction Manual (not shown), Battery Pack LP-E6N*, Battery Charger LC-E6*, USB Interface Cable IFC-150U II*, Cable Protector, and 20.2 Megapixels, 16000 ISO, 10.0 Frames Per Sec.
Super Telephoto Lens

EF 400mm f/4 DO IS II USM

- Compact, lightweight super telephoto lens that is ideal for sports and wildlife photography.
- Newly-developed gapless dual-layer diffractive optical elements deliver improved image quality with reduced flare.
- Large diameter ground aspherical lens and UD lens for even greater optical performance.

Diffractive Optics (DO)
Canon diffractive optics technology make it possible to have high-performance lenses that are much smaller and lighter than traditional lenses without it. The new super telephoto EF 400mm f/4 DO IS II USM lens incorporates newly developed gapless dual-layered diffractive optical (DO) elements that help improve optical performance while maintaining a compact, lightweight size.

EF 400mm f/4 DO IS II USM • f/4.5 • 1/400 sec. • ISO 320

EF 24–105mm f/3.5–5.6 IS STM

- Wide-angle lens for Canon APS-C cameras (equivalent to 38mm on a full-frame camera) offers an ultra-slim and lightweight design.
- Slimmest and lightest lens of the EF-S series (approx. lens width is 0.9 in, or slightly wider than a U.S. nickel).
- A stepping motor (STM) supports the Canon EOS Movie Servo AF function to provide smooth and quiet continuous AF during video recording, as well as when shooting photos.

Standard Zoom Lens

EF 24–105mm f/3.5–5.6 IS STM

- The first standard zoom EF lens for full frame sensor cameras to include a lead screw-type stepping motor (STM).
- The focusing mechanism employs an inner focus lens and a stepping motor to support the Canon EOS Movie Servo AF function* and provides smooth and quiet continuous AF during video recording, as well as when shooting photos.
- Optical Image Stabilizer provides up to four shutter speed stops of correction**.
- New 7-group zoom optics allows for a conveniently compact design and outstanding optical performance.

* Cameras compatible with Movie Servo AF, as of August 2014: EOS 7D Mark II, EOS 70D, EOS Rebel T4i, EOS Rebel T5i, EOS Rebel T6i, EOS Rebel T6s, EOS Rebel SL1, and EOS M (with Mount Adapter EF–EOS M). ** According to CIPA (Camera & Imaging Products Association) standards.

NEW!

Wide-Angle Lens

EF-S 24mm f/2.8 STM

- Wide-angle lens for Canon APS-C cameras (equivalent to 38mm on a full-frame camera) offers an ultra-slim and lightweight design.
- Slimmest and lightest lens of the EF-S series (approx. lens width is 0.9 in, or slightly wider than a U.S. nickel).
- A stepping motor (STM) supports the Canon EOS Movie Servo AF function to provide smooth and quiet continuous AF during video recording, as well as when shooting photos.

Stepping Motor (STM)
Canon EF lenses with stepping motor (STM) technology focus using a geared ring or a lead screw rotary drive system for amazingly smooth and quiet AF. This can be beneficial during continuous AF shooting when capturing HD video with Movie Servo AF.
Sophisticated Lenses, Incredible Clarity
The PowerShot G7 X camera features an amazing Canon zoom lens designed to complement its 1.0-inch CMOS sensor. The lens has a bright maximum aperture for speed, low-light performance and shallow depth-of-field. It offers a versatile 4.2x Optical Zoom with a range of 24–100mm. A wide-angle equivalent of 24mm helps enable the camera to capture more within the frame, while a 9-blade aperture provides beautiful background blur for incredibly dramatic images.

Big Sensor, Big Possibilities
Larger than most sensors found in digital point-and-shoot cameras, the 1.0-inch CMOS sensor in the PowerShot G7 X camera enhances its low-light shooting capabilities because its larger sensor has bigger individual cells that capture more light at the pixel level. The results are more dramatic images with better detail, improved dynamic range, as well as less noise and distortion, even at higher ISOs.

The Brilliance of Canon Optical Zoom
Innovative lens construction has made it possible to incorporate powerful optical zooms into compact, handheld designs. PowerShot digital cameras offer an array of incredible zooms to provide users the versatility needed to get high quality, steady close-ups of faraway subjects. The new PowerShot SX60 HS camera features a remarkable 65x Optical Zoom that’s ideal for photographing from extreme distances. The impressive zoom is complemented with Zoom Framing Assist, which helps make it easier to track and retain focus on moving subjects at maximum telephoto during video and still image capture.

Selfie to the Max
The sleek, distinct design of the PowerShot N2 camera features a 2.8-inch, 180 degree tilt, capacitive touch LCD screen and, in combination with the camera’s new Self Portrait mode, makes this the ideal camera for taking a spontaneous selfie.
**PowerShot G7 X**

**NEW!**

- New 1.0-inch, 20.2 Megapixel* High-Sensitivity CMOS sensor combined with Canon’s powerful DIGIC 6 Image Processor creates the Canon HS SYSTEM for outstanding low-light performance up to ISO 12800, enhanced image quality, and fast operation.
- A bright f/1.8 (W) – f/2.8 (T), 4.2x Optical Zoom (24mm–100mm), 9-blade iris diaphragm and IS equipped lens enables you to capture more in your frame, and is ideal for low-light conditions or using shallow depth-of-field for dramatic, soft backgrounds. Focus range starts at 2.0 in. for Macro and 1.3 ft. for Tele.
- Selfie-ready multi-angle capacitive 3.0” touch panel LCD with a screen resolution of 1,040K dots for a sharp, clear display and easy operation and sharing.
- High-Speed AF (0.14 sec.) greatly improves focus speed. 31 AF points provide an expanded and more accurate focus area. Paired with continuous shooting speeds of up to 6.5 fps and the removal of buffer time, you can get your best shot in full resolution.

**PowerShot SX60 HS**

**NEW!**

- 65x Optical Zoom (21–1365mm) Wide Angle Lens with Optical Image Stabilizer for outstanding optical performance and versatility for both close-ups and wide shots.
- 16.1 Megapixel* High Sensitivity CMOS Sensor combined with the DIGIC 6 Image Processor creates the Canon HS SYSTEM, which helps to provide excellent low-light performance.
- Capture stunning 1080p/60p Full HD video in MP4 format with a dedicated movie button, fast and silent zoom, and focus while shooting thanks to USM and VCM. The PowerShot SX60 HS is also the first PowerShot model with external microphone input capability.
- For easy Wi-Fi® connectivity*, built-in NFC (Near Field Communication) allows quick and simple pairing to a compatible Android™ device^^.
- Intelligent IS automatically chooses from eight different modes to optimize image stabilization for virtually shake-free images in a wide variety of conditions.

**KIT CONTENTS**

**PowerShot G7 X**
- PowerShot G7 X
- Battery Pack NB-13L*
- Battery Charger CB-2LH*
- Wrist Strap WS-DC12

**PowerShot SX60 HS**
- PowerShot SX60 HS
- Neck Strap NS-DC11
- Lens Cap (with Strap)
- Battery Pack NB-10L*
- Battery Charger CB-2LC*

*Image processing may cause a decrease in the number of pixels. *Available as optional accessory.

All lenses are sold separately.

[usa.canon.com/powershot](http://usa.canon.com/powershot)
Remarkable Zoom. Amazing Power.

- Canon’s powerful 42x Optical Zoom (24–1008mm) and 24mm Wide-Angle lens with Optical Image Stabilizer help ensure outstanding optical performance and versatility.
- 16.0 Megapixel** High-Sensitivity CMOS sensor combined with the Canon DIGIC 4+ Image Processor creates the Canon HS SYSTEM, which helps to provide excellent low-light performance.
- Capture stunning 1080p Full HD video with a dedicated movie button and zoom while shooting.
- Intelligent IS automatically chooses from eight different modes to optimize image stabilization for virtually shake-free images in a wide variety of conditions.
- Zoom Framing Assist makes it easy to track and capture subjects while using the extreme telephoto. With this advanced feature your camera will automatically zoom in or out while following the movement of your subject and help ensure it remains in focus.
- Zoom Framing Assist makes it easier to keep subjects in the frame until you’re ready to shoot. You can also choose the subject AF frame to offer additional assistance and control.

** Image processing may cause a decrease in the number of pixels. * Also available as optional accessory.

KIT CONTENTS
- PowerShot SX520 HS
- Lens Cap (with Strap)
- Battery Pack NB-6LH*
- Battery Charger CB-2LY*
- Neck Strap NS-DC11

(USB Interface Cable and Digital Camera Solution CD-ROM are not included.)

Power Zooming. Easy Shooting.

- Canon’s powerful 30x Optical Zoom (24–720mm) and 24mm Wide-Angle lens with Optical Image Stabilizer help ensure outstanding optical performance and versatility.
- 16.0 Megapixel** sensor combined with the Canon DIGIC 4+ Image Processor deliver brilliant image quality.
- Capture impressive 720p HD video with a dedicated movie button and zoom while shooting.
- Intelligent IS automatically chooses from eight different modes to optimize image stabilization for virtually shake-free images in a wide variety of conditions.
- High Speed AF greatly helps improve focus speed so you can capture every shot with ease.
- Smart AUTO intelligently selects the proper settings for the camera based on predefined shooting situations** to help ensure the best possible image capture for stills or video.

** Image processing may cause a decrease in the number of pixels. * Also available as optional accessory.

KIT CONTENTS
- PowerShot SX400 IS
- Lens Cap (with Strap)
- Battery Pack NB-11LH*
- Battery Charger CB-2LF*
- Wrist Strap WS-DC12

(USB Interface Cable and Digital Camera Solution CD-ROM are not included.)
Show Off Your World – Remarkably

• Built-in Wi-Fi® allows wireless transferring of images and video to compatible mobile devices*, select social networking sites, a Wi-Fi®-enabled computer, and lets you remotely shoot using your smartphone or tablet**.

• For easier Wi-Fi® connectivity, built-in NFC (Near Field Communication) allows quick and simple pairing to a compatible Android device***.

• The convenient Mobile Device Connect Button allows you to connect to your compatible Android® or iOS® device**** for quick and easy sharing.

• Selfie-ready multi-angle capacitive 2.8” touch panel LCD makes using the new Self Portrait Mode simple and fun, and provides a sharp, clear display and easy operation and sharing.

• Creative Shot mode uses composition, color and lighting from your original image to create unique images with an artistic flair. Advanced movie shooting feature automatically combines super slow motion movie and quick motion movie with various filters and creates fantastic movies.

• Unique symmetrical design is optimized to help users shoot horizontally or vertically – ideal for new Self Portrait mode.

KIT CONTENTS

• Powershot N2
• Battery Pack NB-9L®
• Battery Charger CB-2LB*
• Wrist Strap WS-800
• Battery Charger CB-2LD
• USB Interface Cable IFC-400PCU
• White Strap WS-800
• Software Kit CD-ROM (Included)

Self Portrait Mode
It’s easier than ever to get flattering pictures of yourself using the convenient Self Portrait mode. Users can add effects or adjust settings for the flash and self-timer when viewing the LCD.

16.1 Megapixels CMOS
8x Optical Zoom
2.8” Tilt, Capacitive Touch Panel LCD

PowerShot N2

Customer Contact Center
Canon U.S.A. maintains a 100% U.S.-based call center staffed with over 500 Canon employees. Whether by telephone, e-mail or the Web, highly trained specialists stand ready to assist Canon U.S.A. customers at every level of expertise. Committed to quick and easy resolution of all support issues, our specialists deliver industry-leading response times and quality support. Canon is further committed to continual service improvement and investment in customer support technologies.

Service Offerings
Canon Maintenance Service (CMS) Canon Maintenance Service will help ensure your Canon EOS Digital SLR camera and EF lenses maintain optimal condition and performance. Your equipment will be serviced by Canon Factory Trained Technicians, to help ensure excellent image quality. For more information, visit: usa.canon.com/maintenance

Canon Professional Services (CPS) Multiple membership levels are available for individual, full-time working professionals who use qualifying Canon equipment. Available benefits include 24/7 technical support, expedited and discounted repair service, on-site event support, loaner equipment and more. For more information, visit: cps.usa.canon.com

Recognition for Excellence
PCMag.com Readers’ Choice Award for Service & Reliability for Digital Cameras and Printers.

National Service Network
The Marketing Engineering Technology Center (METC) provides true factory-level service right here in the United States. Staffed by Canon factory-trained technicians, our service operations achieve industry-leading turnaround times and quality of repair. Our state-of-the-art facilities include a precision lens center and a climate- and particulate-controlled clean environment for the handling of sensitive equipment. Our service operation extends its reach through the Canon Regional Factory Service Centers and the National Authorized Service Network located from coast to coast. Canon supports a number of environmental and recycling initiatives including a Zero Landfill Product Re-use & Recycling Program.

---

The EOS 5D Mark III requires a firmware upgrade to be compatible with the GPS Receiver GP-E2. The WFT-E7A requires a firmware update and Interface Cables IFC-40AB II or IFC-150AB II to work with the EOS 7D Mark II. Firmware updates are available on each individual product’s webpage on the Canon website. See usa.canon.com/consumer for our full line of products.
