

# The Next Standard of Engineering

## Built for Today's Business Climate Where More Is Asked With Less, These Printers Offer an Advanced Large-format Solution

Setting the next standard of engineering, Canon delivers the TX Series of large-format printers—the solution you need to capitalize on the emerging market trends and lead your organization to success.

Available in 36-inch and 44-inch models, and as Scan-to-Copy/File/Share systems, the TX Series come equipped with a new print head, new media handling and a new mechanical platform giving you the ability to print up to 3-D sized prints per minute.

- New 5-Color LUCIA TD Pigment Ink Set
- Automatic Media Handling
- Multifunction Roll System for Two Roll Printing (Optional)
- High-Volume TX Stacker
- Advanced Security Features
- Scan-to-Copy/File/Share Solutions Available
