

Canon imageFORMULA DR-C225W II **Outstanding Workgroup Scanner**

The Canon imageFORMULA DR-C225W II, chosen by Buyers Lab analysts as the winner of the Winter 2019 Pick award for Outstanding Workgroup Scanner, offers...

- Upright, space saving design means workers don't need to sacrifice a lot of desk space to be more productive
- Superior reliability and image quality, plus smaller than average file sizes compared to other devices in its class
- Easy user experience, especially through Canon's CaptureOnTouch scan software
- Preconfigured scan profiles enable users to streamline and standardize frequently recurring scanning chores

“Scanning should never be the most complicated part of a business process—you should be able to load your documents, click a few buttons, and go on with your day,” said Lee Davis, Keypoint Intelligence’s Editor of Scanner/Software Evaluation. “The Canon imageFORMULA DR-C225W II allows for exactly that: Workers can load their documents, select their job profile, click scan, and move to the next step in the workflow.”

The Canon imageFORMULA DR-C225W II leverages Wi-Fi connectivity and an upright design to help businesses be more productive without having to run a lot of wires or sacrifice a lot of space. The device was a standout performer during Buyers Lab’s suite of reliability, ease of use, and image quality tests. The device is highly reliable, as evidenced by its flawless performance during Buyers Lab’s 7,500-scan reliability test. During file size testing, the device created some of the smallest multi-page file sizes, which can be very beneficial for organizations that rely on cloud services that charge a premium for storage. Image quality testing also showed that the device was able to recreate truer cyan, magenta, yellow, red, and blue colors than other competitive devices Buyers Lab has tested.

About Keypoint Intelligence - Buyers Lab

Keypoint Intelligence is a one-stop shop for the digital imaging industry. With our unparalleled tools and unmatched depth of knowledge, we cut through the noise of data to offer clients the unbiased insights and responsive tools they need in those mission-critical moments that define their products and empower their sales.

For over 50 years, Buyers Lab has been the global document imaging industry's resource for unbiased and reliable information, test data, and competitive selling tools. What started out as a consumer-based publication about office equipment has become an all-encompassing industry resource. In a landscape that's ever evolving, we change with it.

About Buyers Lab Pick Awards

Buyers Lab Picks stand alone in the industry and are hard-earned awards, as they are based on rigorous testing, including an extensive durability assessment and evaluation of key attributes such as usability, image quality, and value. Each product that passes our lab test earns Buyers Lab's Recommended or Highly Recommended seal and our Certificate of Reliability, with the best performers qualifying as Pick contenders.
