I.R.I.S. Corp. (a Canon company)

IRISPowerscan 10

Outstanding Scan Capture & Processing Solution

BLI BUYERS LAB 2018 PICK

The analysts at Keypoint Intelligence - Buyers Lab (BLI) have recognized Canon's IRISPowerscan 10 as Outstanding Scan Capture & Processing Solution for the 2018 software Picks season thanks to these key strengths and benefits:

- Complete document capture and processing feature set
- Support for hardcopy capture from all leading brands of scanners, plus electronic document capture from watched folders and popular cloud storage services
- Top-notch OCR (optical character recognition) engine with support for 137 languages
- IRISFingerprint technology that intelligently recognizes document types on the fly to accurately split jobs without the need for separators
- Intuitive user interface and handy wizards that help streamline capture tasks

Digitizing paper documents to capture the information they contain is a critical task in any document-intensive organization. IRISPowerscan 10, from I.R.I.S. Corp. (a Canon company), delivers advanced tools to knowledge workers tasked with capturing and processing pages to make the job as streamlined and automated as possible. The application can handle high-volume scanning, classification, and indexing, and can work with documents from just about any source, including all leading brands of scanners and even electronic documents that arrive in a watched folder from any source. It features class-leading OCR abilities with an emphasis on recognizing foreign languages and documents that have a mix of languages on a single page. Most notably, it delivers intelligent processing that can recognize document types and automatically classify and index them without a user having to look at each one.

"We've been hearing about the 'paperless office' for more than 10 years now, and I suspect we'll be hearing about it for the next decade, too," noted Jamie Bsales, Director of Solutions Analysis at Keypoint Intelligence. "IRISPowerscan can apply its unique processing intelligence to quickly turn stacks of paper, as well as documents that already exist in digital form, into actionable information ready for an organization's electronic workflows."

About **Keypoint Intelligence - Buyers Lab**

Keypoint Intelligence is a one-stop shop for the digital imaging industry. With our unparalleled tools and unmatched depth of knowledge, we cut through the noise of data to offer clients the unbiased insights and responsive tools they need in those mission-critical moments that define their products and empower their sales.

For over 50 years, Buyers Lab has been the global document imaging industry's resource for unbiased and reliable information, test data, and competitive selling tools. What started out as a consumer-based publication about office equipment has become an all-encompassing industry resource. Buyers Lab evolves in tandem with the ever-changing landscape of document imaging solutions, constantly updating our methods, expanding our offerings, and tracking cutting-edge developments.

About **Buyers Lab Software Pick Awards**

Buyers Lab Document Imaging Software Picks stand alone in the industry and are hard-earned awards as they are based on rigorous testing, including evaluation of key attributes such as features, usability, and value. Each product that passes our lab test earns Buyers Lab's Platinum, Gold, Silver or Bronze rating, with the best performers qualifying as Pick contenders.
