A FAMILY OF POWERFUL CAMERAS WITH A CHOICE FOR EVERYONE

The Canon PowerShot G-Series line-up of cameras packs powerful features and impressive picture quality into advanced, easy-to-use compact cameras. A large 1.5-inch or 1.0-inch CMOS sensor brings outstanding image quality while fast, high-quality Canon zoom lenses grab sharp detail even in low light. Intuitive manual controls and customizable menus let you fine-tune your images with minimal effort. Five distinct, compact and stylish cameras, each with a powerful set of features designed to help capture photos and videos the way you want to. With the PowerShot G-Series of cameras, there’s a choice for everyone.
1.5-inch CMOS Sensor
High Zoom
High Performance EVF
Compact Performer
Slim & Stylish
Large 1.5-inch CMOS Sensor

The PowerShot G1 X Mark II camera’s large 1.5-inch CMOS sensor helps capture low-light night scenes and the vibrant colors of bright daytime scenes. Its high sensitivity and extensive dynamic range bring images that have detailed highlights and shadows with minimal noise.

Fast and Versatile Zoom Lens

The versatile lens in the PowerShot G1 X Mark II camera features a wide 5x Optical Zoom, a bright f/2.0–3.9 aperture range and quick autofocus. These help capture gorgeous night landscapes, sharp midday close-ups and fast sports action. Its shallow depth of field also creates beautiful background blur to help make your subject stand out.
Bring What’s Distant 25x Closer

The PowerShot G3 X camera’s powerful 25x Optical Zoom silently brings you to the shot you want, without interrupting the action. The bright f/2.8–5.6 lens helps you capture sharp, high-quality images all through the entire telephoto range. Wildlife in their natural habitat, facial expressions from afar, architectural details and more are all within reach.

Resistance to Dust and Water

Thanks to precisely aligned body sections and tight rubber seals, the rugged PowerShot G3 X camera resists water sprays, dust and rain. Whether you’re deep in the jungle, crossing a dune in the desert or simply caught out in the rain, you can rely on the PowerShot G3 X to help capture that epic photo.
The Precision of Fine Control

Built-in Electronic Viewfinder

The PowerShot G5 X camera’s 2.36 million dot electronic viewfinder adds flexibility in how you use the camera. Customize the image information you see in the viewfinder to help get your photo looking how you want it. With 270° and 180° vari-angle LCD screen and viewfinder layouts, you can easily compose, adjust and review.

Intuitively Easy

With easy-to-use customizable dials and a quiet control ring, the PowerShot G5 X camera lets you adjust the camera’s settings without searching, and keep noise to a minimum when recording video. A variety of focus and ISO controls and viewfinder layouts keep the information you need right where you need to see it.

PowerShot G5 X

THE PRECISION OF FINE CONTROL
High Performance, Compact Size

Just because you’re on the go, doesn’t mean you need to sacrifice image quality. The PowerShot G7 X Mark II features a powerful 4.2x Optical Zoom and an image stabilizer to help you take high-quality photos and videos.

Full Manual Control

Despite its compact size, the PowerShot G7 X camera features manual control similar to DSLRs. You can adjust the ISO setting to help capture low-light scenes, change the aperture for beautifully blurred backgrounds, and modify exposure time for artistically blown-out highlights or fast action caught in the moment.
Slim and Stylish
The PowerShot G9 X camera is slim, stylish, and fits in your pocket and helps you take great photos. Its modern design comes in silver or black. Inside is a powerful 1.0-inch CMOS sensor that’s paired with the DIGIC 6 Image Processor to help ensure you get the best possible pictures.

Easy to Hold, Easy to Use
The slim size and ergonomic design of the PowerShot G9 X camera helps ensure it remains comfortable in your hand, even while recording long videos. The durable, specially treated leather-like grip material helps you hold the camera securely, so you’re ready to capture that unforgettable moment. If you want to make adjustments, the capacitive LCD touch panel allows for quick settings changes even while you’re taking a picture.
ONE FAMILY, FIVE CAMERAS, A CHOICE FOR EVERYONE

THE MARK OF POWERSHOT EXCELLENCE
- 1.5-inch CMOS Sensor
- 12.8 Megapixels* (3:2)
- 5x Optical Zoom Lens
- 24–120mm, f/2.0(W)–f/3.9(T) Lens
- Compatible with Electronic Viewfinder EVF-DC1**
- 3.0” Tilt (Up 180˚ /Down 45˚), Capacitive Touch Panel LCD
- Shoot up to 5.2 fps
- Full HD Video Recording (108p)
- DIGIC 6 Image Processor
- ISO 100–12800
- Intelligent IS
- Shutter Speed: 50–1/4000 sec.
- RAW Mode
- Built-in Wi-Fi® / NFC

THE VERSATILITY OF HIGH ZOOM POWER
- 1.0-inch CMOS Sensor
- 20.2 Megapixels* (3:2)
- 25x Optical Zoom Lens
- 24–600mm, f/2.8(W)–f/5.6(T) Lens
- Compatible with Electronic Viewfinder EVF-DC1**
- 3.2” Tilt (Up 180˚ /Down 45˚), Capacitive Touch Panel LCD
- Shoot up to 5.9 fps
- Full HD Video Recording (60, 30, 24fps)
- DIGIC 6 Image Processor
- ISO 125–12800
- Intelligent IS
- RAW Mode
- Built-in Wi-Fi® / NFC

THE PRECISION OF FINE CONTROL
- 1.0-inch CMOS Sensor
- 20.2 Megapixels* (3:2)
- 4.2x Optical Zoom Lens
- 24–100mm, f/1.8(W)–f/2.8(T) Lens
- Built-in Electronic Viewfinder
- 3.0” Vari-Angle, Capacitive Touch Panel LCD
- Shoot up to 6.5 fps
- Full HD Video Recording (60, 30fps)
- DIGIC 6 Image Processor
- ISO 125–12800
- Intelligent IS
- RAW Mode
- Built-in Wi-Fi® / NFC

POWERED TO INSPIRE
- 1.0-inch CMOS Sensor
- 20.2 Megapixels* (3:2)
- 4.2x Optical Zoom Lens
- 28–84mm, f/2.8(W)–f/4.9(T) Lens
- 3.0” Capacitive Touch Panel LCD
- Shoot up to 6.0 fps
- Full HD Video Recording (60, 30, 24fps)
- DIGIC 6 Image Processor
- ISO 125–12800
- Intelligent IS
- Shutter Speed: 30–1/2000 sec.
- RAW Mode
- Built-in Wi-Fi® / NFC

THE BEAUTY OF SLIM DESIGN

* Image processing may cause a decrease in the number of pixels. ** Optional accessory.
