

Print, Scan, And Send With Canon PRINT Business App

Helping To Minimize Touch-Points

Remote Operation

Remote Operation allows the user to control the imageRUNNER ADVANCE and imagePRESS Lite user interface from their smartphone or tablet without having to touch the control panel. Simply connect to your device via a Bluetooth or NFC connection, or by scanning the device QR code.

Print with Canon PRINT Business

Print documents saved in a cloud location or local to your mobile device

Select
“**Documents**”
in the application
and choose the
file location.

Choose the **file**
you want to print.

Preview the
file and tap the
printer icon.

Confirm your
printer and
select print/
finishing settings.
Tap “**Print**.”

Note: Print/Finishing options available: Output Size, Copies, Print Range, Paper Source, Select Color Mode, Simplex or Duplex, Staple, and 2-on-1. Available print/finishing settings differ, depending on the device model. If you set functions not supported by the device you're using, the settings will not be applied.

Scan with Canon PRINT Business

Scanning to your mobile device is easy

* Compact, OCR, and Encryption can be set.

** Can only be set when using the "Scan and Send" function.

Easier Sending from the MFP with Canon PRINT Business

The "Provide Address" feature of the Canon PRINT Business app allows you to use your mobile device to fill in send destinations (including using your mobile device contacts), subject name, message body, and file name fields on the "Scan and Send" screen.

Learn more about the Canon PRINT Business app on Canon U.S.A.'s YouTube [Enterprise Solutions Playlist](#).

For more technical questions and information, please refer to the online manual for [iOS](#) and [Android](#).

Note: This document assumes the mobile device and MFP are on the same network.
