

Introducing Tri-Fold and Z-Fold

imageRUNNER ADVANCE DX C5800 and 6800 Series

What is Tri-Fold?

The Booklet Finisher-A1[•] now offers the ability to Tri-Fold (C-Fold) documents. Tri-Fold documents are folded the way a letter is folded prior to being put in an envelope. The right panel is folded inward and the left panel is then folded on top.

Note: Other Tri-Fold options available.

Booklet Finisher-A1 with Tri-Fold Key Take Aways:

Now offers Tri-Fold at its original price. Many competitors offer this same feature at an additional cost.

Has the ability to fold up to five sheets at a time, legal or letter size.

Ideal for vertical markets, including **finance**, **education**, **healthcare**, and many more.

What is Z-Fold?

Paper Folding Unit-L1[▲] offers Z-Fold capabilities. Z-Fold documents printed on 11"x 17" originals are folded in half, and then the folded side is folded in half again to result in a letter size media document. Z-Fold is available for letter and legal size originals as well.
