Office Solutions

multifunction printer
compact design
color/black and white

C5255/C5250
C5240/C5235

Simply advanced.
Busy workgroups that demand outstanding efficiency

Standard Features

Copy/Print/Send/Store
Color/Black and White
Print up to 55 ppm (BW), 51 ppm (Color); Letter
Up to 12" x 18"
5,000-sheet maximum capacity
Scan up to 120/120 ipm single-pass duplex*
Flexible in-line finishing options
Scan directly to Microsoft® Word, PowerPoint®, and Searchable PDF formats
Hard Disk Drive Lock and Erase, IPsec

*Single-pass duplex available only on the imageRUNNER ADVANCE C5255/C5250 models.
Simply advanced.

The imageRUNNER ADVANCE C5200 Series transforms workflow from a series of individual processes to an integrated flow of shared information. A beautifully compact communications hub, this Series can drive your organization to new levels of performance and productivity. From every point of view, these models are simply advanced.

People-Centric
An exceptionally intuitive, simple-to-use interface puts access to all functions right at your fingertips, whether at the device or at your desktop.

Brilliant
Get noticed with high-impact color or crisp black-and-white output, all delivered with amazing speed.

Mobile
Even on the go, you’re in control. Print from a laptop, tablet, or smartphone to an imageRUNNER ADVANCE system.

Connected
Advanced technology and expansive enterprise applications work seamlessly with your device to deliver exceptional results.

Cloud-Enabled
A touch of a button on the user interface lets you access, scan to, or print directly from, certain cloud applications.

Security
Multilayered solutions safeguard confidential information and support security compliance with certain options.
Simple to use. Very people-centric.

The imageRUNNER ADVANCE C5200 Series helps each user accomplish every task with outstanding ease. A center of extraordinary productivity, these models are simple to personalize, creating a truly customized way to work.

A smart, intuitive interface
The imageRUNNER ADVANCE C5200 Series is designed with you in mind. With an impressive range of customizable, simple-to-use, streamlined features, these models let everyone work smarter and faster. With a large, full-color, high-resolution 8.4” TFT screen, users can easily view all information.

Two menus
Press the Main Menu key for instant access to business-ready functions. Use the Quick Menu to power productivity by combining and accessing routine tasks at the touch of a button.

Custom options
Organize the on-screen buttons to fit the way you work by determining their number, size, and layout. Even display your own logo or special graphic as a screen background.

Web-ready
View Web pages directly from the device control panel. Just enter a URL to browse pages. Easily output online PDFs.

Handy tutorials
Quickly access simple step-by-step instructions right on the user interface.
Designed for ease
Thoughtful details such as a light under the automatic document feeder* and an optional USB keyboard allow you to work more comfortably. Toner bottles can be replaced with minimal effort, and paper drawers spring open at the touch of a button.

Engineered for adaptability
These intelligent systems help you achieve your goals now and in the future. With the ability to smoothly integrate hardware and software solutions, the imageRUNNER ADVANCE C5200 Series lets you personalize applications to meet your organization’s changing needs. And it’s highly flexible, so you can easily add to, or update, your system with the quick deployment of settings and applications across your enterprise.

Walk-up convenience
Easily scan to, or print from, a USB thumb drive. Expand connectivity options to include memory media, such as an SD card or CompactFlash card. Even browse folders and rename files.

A consistent experience
No matter which imageRUNNER ADVANCE device you use, you’ll enjoy a consistent, simple-to-use experience, as all models in the Series use the same interface and print driver.

*Available only on the imageRUNNER ADVANCE C5255/C5250 models.
Powerful connections. Seamless integration.

A powerful digital communications center, the imageRUNNER ADVANCE C5200 Series integrates enterprise applications, connects to the cloud, and gives you the freedom to work from wherever you are, efficiently and easily.

On the go
In an increasingly mobile world, people need the ability to work remotely while maintaining their productivity. Now Canon delivers advanced solutions that keep work flowing effortlessly from wherever you are.

Mobile devices
Print from, and scan to, your laptop, iPad® tablet, and iPhone® or BlackBerry® smartphone. Access an imageRUNNER ADVANCE device to retrieve your job.

Cloud portal
Gain quick access to certain cloud-based applications right from your imageRUNNER ADVANCE device. Access or send documents directly from the cloud.

Advanced Anywhere Print
This serverless solution lets you print to a connected imageRUNNER ADVANCE system, then conveniently and securely log-in at any supported device on the network to view and retrieve your print job.

Extensive Print Solutions

Print Options
Canon’s proprietary UFR II print technology is standard with these models. Options including Adobe® PostScript® 3™ and PCL 5c/6 are also supported.

Job and Color Management Tools
Enhance print productivity for multiuser, color-intensive environments with Canon’s imagePASS and ColorPASS* print controllers.

Control
Canon’s Driver Configuration Tool allows you to set specific defaults and custom profiles.

You can control costs and enhance security by implementing features such as allowing only black-and-white and/or secured printing.

* Available only on the imageRUNNER ADVANCE C5255.
Right from your PC
Enjoy even greater control and convenience right from your PC. Use the new imageRUNNER ADVANCE Quick Printing Tool to print, fax, preview, and convert files to PDFs, as well as monitor the status of your system—all without even opening an application. imageRUNNER ADVANCE Desktop lets you manage and prepare documents, combine multiple formats, preview files, and select the finishing functions.

Integrate your imaging with enterprise applications
A new middleware technology, based on Service Oriented Architecture (SOA), effortlessly links enterprise applications, such as Oracle® and SAP®, with Customer Relationship Management (CRM) systems like Salesforce.com®, ECM system, and many others. You can also connect your document-intensive processes with these applications. The streamlined workflow automates complex business processes and offers easy access to information, saving both time and money.
Robust security. Centralized management.

In today’s networked world, you need greater control over your resources and data. The imageRUNNER ADVANCE C5200 Series delivers just that with the ability to configure a system, safeguard information, and track resources, right at your fingertips.

Powerful command
Canon’s device management tools keep you in charge at every step, right from your desktop or through the cloud. Easily install and replace devices, migrate settings and data to new ones, and distribute applications and settings across your network. The intuitive Remote User Interface lets you monitor a single device, while imageWARE Enterprise Management Console lets you track the activity of an entire fleet. Even receive automated notifications when supplies are low or service is needed.

Safeguard data
From installation to retirement, this Series offers multilayered solutions to help safeguard information and support security compliance. HDD Erase, a standard feature, removes latent images after each task. A security chip with tamper-resistant hardware helps protect passwords and encryption keys. IPsec provides security for data as it traverses the network. Options such as HDD Data Encryption help protect information even after hard drive removal.

Maximize resources
These systems offer advanced tools to help you track, manage, and influence user behavior. Solutions, such as uniFLOW, analyze color output, encourage double-sided printing, and allocate costs by department, project, or client. Route jobs to the most cost-effective device, and get alerts when supplies are low.

Secure authentication
With the need to keep data secure, busy workgroups will appreciate the Canon imageRUNNER ADVANCE Series’ serverless print environment. Users can print from anywhere within the network to any connected device via log-in authentication. This helps prevent printed documents from being left unattended.

Note: Some features may be optional.
Standout quality. Outstanding reliability.

Accomplish multiple tasks with impressive speed, produce professional-quality documents, and seamlessly link to business applications—all with performance you can count on.

Make a great impression
Produce professional-quality presentations, reports, and newsletters in-house. Canon’s state-of-the-art imaging technology and toner ensure that image quality is stunning. You can easily generate accurate, high-impact color or crisp black-and-white results on demand. Canon’s proprietary ZIMA chip technology offers superb, high-quality copies. And with flexible finishing capabilities, you’ll be ready for every opportunity.

Lots of uptime
Canon incorporates its signature reliability into every imageRUNNER ADVANCE Series model. Status notifications keep you ahead of the game, and toner can even be replaced on the fly. If the correct paper for a job is unavailable, the system begins the next job without delay. And with access to the latest technology and simple, clear upgrades, you can power through your tasks, giving you more time to devote to other business areas.

Powerful operation
Accomplish multiple tasks concurrently with the speed your work demands. These models have two dedicated processors that work together to accomplish multiple tasks simultaneously. And Quick Startup mode minimizes start-up time, so devices start up promptly to keep you working with outstanding efficiency.

Targeted, integrated solutions
With its brilliant architecture, the imageRUNNER ADVANCE C5200 Series offers true personalization, allowing you to gather, organize, and disseminate information to meet your unique challenges. Canon’s innovative MEAP® platform lets you develop custom solutions to meet specific workflow needs. And new levels of connector and link support enhance communication with existing systems as well as those you may acquire in the future.
Strong commitment. Eco-conscious solutions.

It’s all about a brighter, greener future. The imageRUNNER ADVANCE C5200 Series incorporates innovative, eco-conscious solutions that keep your business operating efficiently while helping to reduce your environmental footprint.

A responsible way to work

Canon knows that the world and the workplace need a greener workflow. The imageRUNNER ADVANCE C5200 Series, registered in EPEAT®, delivers just that. Now organizations can seamlessly share and distribute digital documents and preview files to make changes prior to printing, helping to reduce the use of paper and toner. Print drivers are automatically set for duplex, encouraging two-sided printing to reduce waste. And with Secure Print, documents are sent to a device but aren’t printed until a password is entered, contributing to a reduction in paper waste.

Eco-conscious design

Canon is making a difference through creative ecological thinking. These models employ certain components fabricated with recycled plastic from retired products. Canon’s innovative green technologies also include bio-based plastic, a plant-derived compound that replaces certain petroleum-based plastic parts.

A clear strategy

Greater energy efficiency

From the inside out, the imageRUNNER ADVANCE C5200 Series is designed for high-energy efficiency and stellar performance. The combination of our fusing technologies and PQ toner helps lower overall energy consumption by minimizing power requirements and reducing energy use during warm-up and standby. With advanced technologies present in each model, the Series meets ENERGY STAR® standards.

Reducing pollution

All suppliers are required to meet Canon’s stringent Green Procurement policy and environmental terms. This helps Canon exceed the toughest global standards set by the EU RoHS Directive, which restrict the use of certain hazardous substances.

Reduction of CO₂ emissions

Through its Life Cycle Assessment (LCA) System, Canon has lowered CO₂ emissions by focusing on each stage of the product life cycle, including manufacturing, energy use, and logistics. These products are designed to be the smallest and lightest in their class, with less packaging, to make transportation more efficient.

Customized for your work environment

Finishing Options

- **Booklet Finisher-J1**: 2-tray, 3,000-sheet capacity, Corner and double stapling up to 50 sheets, Booklet-making up to 16 sheets
- **Inner Finisher-E1**: 500-sheet capacity, Corner and double stapling up to 50 sheets
- **External 2/3-Hole Puncher-B2**: 2- and 3-hole punching
- **Staple Finisher-J1**: 2-tray, 3,000-sheet capacity, Corner and double stapling up to 50 sheets

Other Finishing Options
- **Inner 2-way Tray-F1**
- **Copy Tray-J1**
- **Inner Finisher Additional Tray-A1**

Printer Options

- **PCL Printer Kit-AR1**
- **PS Printer Kit-AR1**
- **Direct Print Kit (for PDF/XPS)-H1**
- **imagePASS-B2**
  - Intel® Pentium Dual Core™ E5300 2.6GHz Processor
  - 2GB RAM standard
  - 160GB Hard Disk
  - Adobe PS 3/PCL Sc/PCL 6

**ColorPASS-GX400**
- Intel® Core™ i5 660 3.33GHz Processor
- 2GB RAM standard
- 500GB Hard Disk
- Adobe PS 3/PCL Sc/PCL 6

Security Options

- **Universal Send Security Feature Set-D1**
- **Universal Send Digital User Signature Kit-C1**
- **Encrypted Secure Print-D1**
- **Secure Watermark-B1**
- **Document Scan Lock Kit-B1**
- **HDD Data Erase Scheduler**
- **HDD Data Encryption and Mirroring Kit-C1**
- **Removable HDD Kit-AC1**

Accessibility Options

- **Remote Operators’ Software Kit-B1**
- **Voice Operation Kit-C2**
- **Voice Guidance Kit-F2**
- **Braille Label Kit**
- **ADF Access Handle-A1**

Paper Feeding Options

- **Cassette Feeding Unit-AD2**
  - 550-sheet x 2-cassette capacity
  - 14 lb. Bond to 80 lb. Cover
  - Supports up to 12” x 18”

- **Paper Deck Unit-B2**
  - 2,700-sheet capacity
  - 14 lb. Bond to 28 lb. Bond
  - Supports letter-sized paper

- **Envelope Feeder Attachment-D1**
  - 50-sheet capacity
  - Supports COM10 No.10, Monarch, DL, ISO-B5, ISO-C5

Other Paper Feeding Options
- **Tab Feeding Attachment Kit-B1**
- **Cabinet Type-B1**

## Print Specifications

### Engine Resolution:
- 1200 x 1200 dpi

### PDL Support
- Standard: UFRII
- Optional: PCL 5c, PCL 6, Adobe PS 3

## Fax Specifications

### Print Driver Supported OS
- UFRII, PCL 5c, Adobe PS 3
- Windows® (XP/Windows Vista®/7), Windows Server (2003/2008/ 2008 R2/2012/2012(R2)), Windows Terminal Servers, Microsoft® Clustering Server, Citrix, Macintosh® (OS X 10.5.8 or later, UFRII II and PS 3 only), VMware, SAP (PS and PCL Only)

### Direct Print Support
- Standard: TIFF, JPEG
- Optional: PDF, XPS*, EPS**

## Universal Send Specifications

### Sending Method
- E-Mail, I-Fax, File Server (FTP, SMB, WebDAV), Mail Box, Super G3 Fax (Opt.)

### Communication Protocol
- File: FTP (TCP/IP), SMB, TCP (TCP/IP), WebDAV
- E-mail/I-Fax: SMTP, POP3, I-FAX (Simple, Full)

## Security Specifications

### Standard
- Department ID Management, Single Sign On-H, Access Management System (Device and Function Level Log-in), Secured Print, Trusted Platform Module, User Access Control of Advanced Box, Mail Box Password Protection, IPv6, Restricting Features (Restricting the Send Function, Restricting New Addresses on Address Book), SSL Encrypted Communication, SNMPv1/v2, MAC/IP Address Port Filtering, SMTP Authentication, POP Authentication before SMTP, HDD Initialize (Up to 9x), HDD Erase (Up to 3x), HDD Lock, IPSec, Adobe LiveCycle® Rights Management ES2.5 Integration

### Fax Specifications

#### Maximum Number of Connection Lines: 4

### Store Specifications

- **Mail Box** (Number supported): 100 User Inboxes, 1 Memory RX inbox, 50 Confidential Fax Inboxes

### Advanced Box

- Available: Approx. 15GB (Standard HDD), Disk Space: Approx. 629GB (1TB HDD)
- Communication Protocol: SMB or WebDAV
- Supported: Windows® (Windows 2000/XP/Windows Vista®/7)

### Memory Media
- Standard: USB Memory
- Optional: SD, SDHC, CompactFlash, Memory Stick, Microdrive
