EXPERIENCE THE DIFFERENCE

LATEST GENERATION OF CANON CXDI WIRELESS DIGITAL RADIOGRAPHY SYSTEMS

- CXDI-710C Wireless Digital Radiography System
- CXDI-810C Wireless Digital Radiography System
- CXDI-410C Wireless Digital Radiography System

Lightweight, IPX7 rated*, limited on-board image storage capability** and ergonomic detector design are just a few of the beneficial features.

* An IPX7 rating does not indicate compliance with, and the detectors have not been tested for compliance with, any other IPX ratings.
** When operated in Standalone Mode
Lightweight AED* Wireless Detectors

Utilizing strong carbon fiber, these Canon detectors are among the lightest weight detectors currently available. Despite being lightweight, the carbon fiber chassis and frame provide high performance and high durability, tested for the rigors of demanding daily use. The detectors offer superb quality and reliability that you have come to expect from Canon.

- CXDI-710C Wireless Detector: approx. 14 x 17 in  5.07 lbs w/ battery
- CXDI-810C Wireless Detector: approx. 14 x 11 in  3.97 lbs w/ battery
- CXDI-410C Wireless Detector: approx. 17 x 17 in  6.17 lbs w/ battery

*Automatic Exposure Detection

Flexible Charging Capabilities

The Docking Station* enables:

- Detector check-in
- Rapid battery charging while in the detector
- Transfer of images from detector taken in Standalone Mode

Battery Charger:

- Charge up to (2) batteries
- Compatible with batteries for CXDI-701C/801C/401C Wireless Detectors and CXDI-710C/810C/410C Wireless Detectors
- Equipped with indicator lights
- Included with CXDI-710C/810C/410C Wireless Detectors

*Sold separately.

IPX7 Rated*

Each detector is IPX7 rated for submersion in water up to 1 meter for 30 minutes.*

*An IPX7 rating does not indicate compliance with, and the detectors have not been tested for compliance with, any other IPX_ ratings.
**CXDI Control Software NE**

CXDI Control Software NE v2.16 is made exclusively for use with Canon CXDI Wireless Detectors and helps to optimize workflow and reduce steps needed to complete exams.

- Auto stitching—up to 4 images
- Windows* 7 and Windows 10 OS supported
- Improved noise reduction capability over earlier CXDI versions
- IHE Compliant
- DICOM* Structured Dose Reporting
- Supports Windows Defender, McAfee* VirusScan Enterprise + AntiSpyware Enterprise 8.8, and ESET* Endpoint Anti-Virus 6.3.*
- Scatter Correction Feature for non-grid exams (sold separately)

*Requires Windows* 10 OS.

**Sleek Detector Design**

The sleek, tough and ergonomically sculpted design includes the following features to facilitate the user and patient experience:

- Comfortable to hold and easy to grip due to the lightweight and ergonomic handgrips sculpted into the detector.
- High quality composite materials, low weight and designed with form and function in mind.
- Easy to position and comfortable for patients and technologists due to smooth rounded corners.

**Improve Workflow**

**Using The ‘Ready’ Function**

When using multiple detectors in one room, a specific detector can be selected not only from the DR modality workstation but also simply by pressing the ‘Ready’ button directly on the detector or on the optional Status Indicator (sold separately).

**On-Board Image Storage**

The latest generation of Canon CXDI wireless detectors are equipped with limited, temporary on-board image storage capability when operated in Standalone Mode. Restrictions and limitations apply. For questions and further information call 866-288-9729.
