

Large-Format Specialty Print Media

Artistic Matte Canvas, 340gsm

The Artistic Matte Canvas can be used for museum quality archival printing, whether fine art reproduction or photographic portrait creations. This cotton/polyester blend (35/65%), double weave canvas has a fast drying, matte finish surface. This canvas features a high white point without optical brighteners which means it won't turn yellow over time. Ideal for wedding pictures and portraits and gallery prints where that traditional oil-on-canvas textured look is desired. The media can be easily stretched for framing art reproductions or sewn for banners applications.

Canon Fine Art Media

Special art work deserves special media. Paintings and digital art superbly reproduce on Canon Fine Art Media. Available in canvas, velvet, photo rag and water resistant styles, Canon Media meet every fine art printing challenge.

With Canon media, you can count on consistently superb image quality and product performance. Canon media goes through rigorous testing to ensure compatibility with imagePROGRAF printers in order to provide the best image quality.
