HIGH-VARIETY OF APPLICATIONS
The DR-G1110 scanner is ideal for processing large amounts of documents in mission-critical, centralized production scanning environments. It has been developed to withstand the rigors of production-level scanning while maintaining high-speed, high-quality imaging. The DR-G1110 scanner can help businesses improve productivity, maintain continuity, and increase efficiencies.

HIGH PERFORMANCE
The DR-G1110 scanner handles up to 100 pages per minute—both sides in a single pass—and holds up to 500 sheets in the ADF. It is also equipped with a dedicated, onboard image processing chip, making it capable of maintaining fast scanning speeds, even with various image processing capabilities enabled. These features all help contribute to improve productivity.

RELIABLE AND FLEXIBLE
This scanner is flexible enough to reliably handle a variety of document types, from business cards to ledger-sized documents, long documents, and thin or thick documents,* using its advanced feeding mechanism. This helps reduce labor-intensive pre-sorting and job preparation. Plus, it has the ability to detect double-feeds and will attempt to recover from them. A durable, solid-body design as well as heavy-duty feed and eject trays further help enhance the scanner’s reliability, allowing minimal downtime and maintaining business continuity.

EFFICIENT, SMOOTH OPERATION
The DR-G1110 scanner features an intuitive control panel that allows easy access to scanner settings, and user-programmable job buttons for one-touch operation. This scanner is also equipped with a motorized paper feed tray that can be adjusted to the height of the batch, and flexible paper feed and output guides. This, plus the ability to handle a variety of document types,* allows for unattended batch scanning for optimizing workflows and increasing efficiencies.

ENVIRONMENT IN MIND
The DR-G1110 scanner meets ENERGY STAR® guidelines for energy efficiency. It also complies with both the EU RoHS and WEEE directives for the reduction of hazardous substances and waste products.**

CUSTOMER CARE
For investment protection, eCarePAK options are available to extend service beyond the initial 90-day, on-site limited warranty period. This can save on costs associated with post-purchase maintenance and helps maximize uptime throughout the product life.

The Canon imageFORMULA DR-G1110 production document scanner provides businesses with a high-performance, reliable, and flexible scanning solution to help enhance document management systems.
