The Flatbed Scanner Unit 102's compact design allows environments such as teller counters at banks or travel agencies to efficiently improve productivity without sacrificing much work space through a simple USB connection.

**VERSATILE, SPACE-SAVING DESIGN**
The Flatbed Scanner Unit 102's compact design allows environments such as teller counters at banks or travel agencies to efficiently improve productivity without sacrificing much work space through a simple USB connection.

**FLEXIBLE OPERATION AND SEAMLESS SCANNING**
From office to production document scanners, the Flatbed Scanner Unit 102 is compatible with select imageFORMULA scanners. By connecting the compatible Flatbed Scanner Unit 102 with a select imageFORMULA scanner to the same computer, users can optimize scanning by separating scan tasks, allowing captured images from both devices to be saved as a single file for increased flexibility.

**DIVERSE DOCUMENT HANDLING**
The Flatbed Scanner Unit 102 is capable of scanning a wide range of document types including thick or thin paper, bound documents, passports, and plastic cards. By scanning via flatbed, users can broaden scanning capabilities and capture important, delicate documents an ADF cannot scan.

---

The Flatbed Scanner Unit 102 is intended to be used in combination with select Canon imageFORMULA document scanners. It cannot operate as a stand-alone unit.
