High-Speed Document Scanners

Capture, manage, and distribute information with greater speed, ease, and efficiency than ever before with high-performance document scanning solutions from Canon.

Canon’s high-speed imageFORMULA DR-Series and ScanFront scanners are integral elements of enterprise content management solutions. As front-end scan capture hardware components, the scanners’ reliability, performance, and feature-rich functionality are critical for ensuring the accuracy and overall effectiveness of any document management workflow.

The imageFORMULA scanners are built upon superior image quality and reliability drawn from Canon’s high-precision optical and rotary microfilm technology expertise. They offer enhanced sensor technology, a reliable feeding system, and unparalleled scanning speeds. The DR-Series and ScanFront scanners are capable of handling high volumes of mixed paper sizes or other challenging scan operations and offer exceptional image quality, capturing fine lines and intricate image details with utmost precision and clarity—without sacrificing maximum scanning speeds.

High-Performance Scanning

High-Speed Scanning
With fast throughput, efficient paper handling, and intuitive image processing functions, Canon document scanners help manage documents in record speed.

Built-in ADF
A high-capacity Automatic Document Feeder allows for fast, unattended scanning of batches of documents.

Simultaneous Double-Sided Scanning* Scan double-sided pages just as quickly as single-sided pages. Each scanner is equipped with dual sensor units to capture both sides of a page in one pass.

User-Friendly Operation
Increased operator handling comfort through ergonomic, compact, and lightweight designs. Plus, easy maintenance with user-replaceable feed rollers and quick access to routine scanning tasks through programmable pre-registered Scan-to-Job buttons.

Advanced Scanning Features
Intelligent devices designed for the tasks at hand, loaded with the right mix of automatic and customizable functions to enhance the image capture process.

Unbeatable Price/Performance
Fast, high-performance duplex document scanners, feature rich, reliable, and durable with an industry-leading combination of price and performance.
Advanced Image Processing Technology

3-Dimensional Color Correction**
Thanks to an incorporated color conversion chip, the 3-Dimensional Color Correction achieves unprecedented color accuracy that’s true to the original. The end result is superior color quality, plus enhanced readability for OCR scanning applications.

Automatic Color Detection***
This function automatically determines which documents of a mixed batch should be scanned in color, so it’s no longer necessary to separate black-and-white and color documents prior to scanning.

Deskew
If a document is fed into the scanner at an angle, this function automatically straightens the scanned image.

Text Orientation Recognition✝
Perfect for scanning batches of documents that are facing different directions, this feature recognizes the text orientation of each fed document and rotates the scanned images accordingly.

Text Enhancement
For clearer, more legible images from documents with hard-to-scan elements such as light text or handwriting.

Color Dropout✝✝
Red, green, or blue can be removed from document images for improved readability in OCR applications. Additionally, a range of specified colors can be dropped out on certain scanners.

Auto Page Size Detection
Save the time and trouble of sorting batches by paper size. This function automatically checks the size of each fed document and ensures properly sized images for each page.

Skip Blank Page
Useful for scanning batches that include single- and double-sided documents, this feature automatically removes unnecessary blank pages from the image file.

Advanced CMOS Contact Image Sensor✝✝✝
Capture fine lines and intricate image details with Canon’s advanced CMOS contact image sensor technology. In addition to providing superior image output, CMOS technology also helps reduce energy consumption and eliminates warm-up time.

Superior Paper Handling

Reliable Paper Feeding
Canon’s revolutionary feeding mechanism with retard roller achieves highly reliable page separation, while preventing problems due to partial double-feeding or dust damage.

Ultrasonic Double-Feed Detection▲
Ultrasonic sensors detect the gap between overlapping pages and prevent multiple pages from being fed together, reliably ensuring that each page of a document is scanned.

U-turn/Straight Path Feeding▲▲
For enhanced efficiency and flexible scanning of a range of document types, including plastic cards and thick documents, select scanner models feature a straight paper path in addition to the standard U-turn path.

Automatic Retry Feeding Mechanism
Upon double-feed detection, this mechanism will reverse the documents and try to feed them again.

Staple Detection
Staple Detection sensors detect any irregular document movement caused by staples and stop the feeding in order to avoid any damage to the document.

* Does not apply to the DR-1210C model.
** Available on the DR-X10C/5010C/4010C models, plus DR-3010C/2580C/2510C/2010C models, which feature a 3-D Color Correction algorithm.
✝ Custom Color Dropout on the DR-X10C/9080C/7580C/7090C/5010C/4010C/3010C/2580C/2510C/2010C models.
▲▲ Available on the DR-5010C/4010C/2580C models.
✝✝ Custom Color Dropout on the DR-X10C/9080C/7580C/7090C/5010C/4010C models only.
DR-7580 Red only.
✝✝✝ All models, excluding DR-1210C, and the flatbed option of DR-7090C and DR-2580C, which feature CCD technology.
* Available on the DR-X10C/9080C/7580C/5010C/4010C/3010C/2580C/2510C and ScanFront 220P models.
** Available on the DR-5010C/4010C/2580C models.
COMPACT NETWORK SCANNERS

The Canon imageFORMULA ScanFront 220/220P scanners are ideal for distributed, ad-hoc, and general purpose scanning. These compact, secure, and easy-to-use scanners feature direct network connectivity for fast and easy installation, reducing the need for difficult-to-manage, power-hungry, dedicated PCs. The ScanFront 220/220P scanners offer a user-friendly interface with full-color 8.5-inch touch-screen convenience, plus state-of-the-art imaging technology for superior scanning accuracy. They move capture closer to the point of origin within the business process, eliminating complexity, reducing costs, and improving productivity and workflow efficiency.

UNIVERSAL WORKGROUP SCANNER

The imageFORMULA DR-1210C universal color workgroup scanner offers flatbed and ADF capabilities, a user-friendly control panel, and industry-leading durability. Surprisingly affordable, this workgroup scanner offers fast and versatile scanning, even to the smallest SOHO office. For added value, this scanner is bundled with powerful software applications for a wide range of business needs.

The ideal productivity boost for small offices and workgroup, the Canon DR-1210C scanner quickly and reliably accommodates stacks of forms, invoices, or contracts. It also offers the capability of scanning books or bound documents, as well as hard-to-handle documents too fragile to pass through the feeder. With outstanding price/performance, the user-friendly DR-1210C scanner provides high-end functionality at an entry-level price.

COMPACT WORKGROUP SCANNERS

Canon’s imageFORMULA DR-2050SP and DR-2050C compact workgroup scanners are about the size of a file folder and less than four inches deep. But even with a small footprint, they’re fast, with grayscale and black-and-white duplex speeds of up to 40 images per minute. They even have color capability for important color documents. The DR-2050SP scanner builds on the award-winning DR-2050C scanner by offering Presentation Mode for direct connection to any standard projector, without the use of a PC.

COMPACT WORKGROUP SCANNERS

The Canon imageFORMULA DR-2510C and DR-2010C color workgroup scanners deliver easy, high-quality scanning in a versatile and space-saving design. Compact and flexible, the DR-2510C and DR-2010C scanners can automatically and quickly scan multiple paper sizes and stocks, even plastic cards. Ideal for all office scanning operations, these scanners provide reliable feeding, advanced image processing functions, customizable Scan-to-Job buttons, and much more for any distributed imaging application.

COMPACT WORKGROUP SCANNER

The Canon imageFORMULA DR-2580C color workgroup scanner is surprisingly compact and lightweight, so it can be used on a desktop or taken on the road. This versatile scanner is loaded with advanced scanning technology and easily handles a wide range of document types, including plastic cards. The DR-2580C scanner is not only one of the smallest, but also one of the most easy-to-use scanners in its class. And adding the optional user-installable flatbed unit allows you to scan books, passports, or fragile documents with simplicity.

COMPACT WORKGROUP SCANNER

The imageFORMULA DR-3010C is Canon's fastest and most reliable compact workgroup scanner, combining the best features from the DR-Series scanners, delivering increased speed, high reliability, and maximum efficiency and productivity. Bundled with the latest document imaging software packages the DR-3010C becomes more than just a scanner. It is the system needed to infuse a busy, paper-intensive office with increased productivity and more efficient workflow.

RELIABLE DEPARTMENTAL SCANNER

Canon brings a high standard of price/performance to the departmental level with the imageFORMULA DR-3080CII color scanner. Never before has there been so much advanced functionality, enhanced productivity, and superior reliability included in one compact package.

The DR-3080CII scanner is durable and reliable, designed for effortless operation yet powerful enough for a busy office environment. This robust scanner was engineered to deliver high-quality imaging in a variety of modes and a choice of output formats—all in the blink of an eye. The DR-3080CII scanner easily keeps up with daily document volumes and increases productivity, without breaking the budget.

RELIABLE DEPARTMENTAL SCANNER

The Canon imageFORMULA DR-4010C color departmental scanner features state-of-the-art technology that delivers exceptional image quality and speed. With features such as Advanced Text Enhancement, Automatic Color Detection, and an advanced three-line CMOS sensor, fine lines and intricate image details are captured with utmost precision and clarity.

This fast, reliable desktop color scanner packs top-of-the-line features into a compact, user-friendly unit. Advanced image processing features, reliable document handling, and a compact design are delivered without sacrificing image quality or speed.

- Exchange Roller Kit
- Barcode Module III
- One-Year CarePAK
- Two-Year CarePAK

* Examples based on typical settings, rated in pages/images per minute with letter-sized documents at 200 dpi unless specified. Actual processing speeds may vary based on PC performance and application software.

** Calculation based on scanning speed and assumed daily use.
LOW-VOLUME PRODUCTION SCANNER

Today’s document imaging requirements are more varied than ever. With this understanding, Canon designed the imageFORMULA DR-5010C production scanner to be a versatile image processing machine. A robust color scanner, the DR-5010C scanner is small enough to sit on a desktop, yet it’s ready to capture hard-to-handle source materials for immediate work efficiency. It’s also ultra-fast, scanning color at the same rapid rate it processes black and white. And this user-friendly machine is loaded with diverse automatic and customizable functions that will change any image capture process.

FEATURES

- Ultrasonic Double-Feed Detection
- Automatic Color Detection
- Automatic Page Size Detection
- Advanced Text Enhancement (Three Types)
- Skip Blank Page
- Deskew
- MultiStream

OPTIONS

- Exchange Roller Kit
- Barcode Module III
- Rear Imprinter
- Nine-Month Extended Service Package
- Back Imprinter
- One-Year Extended Service Package

* Examples based on typical settings, rated in pages/images per minute with letter-sized landscape documents at 200 dpi unless specified. Actual processing speeds may vary based on PC performance and application software.

** Calculation based on scanning speed and assumed daily use.
The Canon imageFORMULA DR-7090C universal production scanner delivers incredible flexibility, image quality, and reliability, all at high scanning speeds, by leveraging the technologies from its award-winning imageFORMULA and imageRUNNER® product lines.

This combination flatbed/sheetfed color production scanner provides leading value that enables it to reduce costs and increase scanning efficiencies in the production environment.

### Specifications

**Type:** Universal Production Scanner  
**Document Feeding:** Automatic Sheetfed, Manual Flatbed  
**Scanning Speeds*:**  
- B/W: Up to 70 ppm Up to 88 ipm  
- Grayscale: Up to 70 ppm Up to 88 ipm  
- Color: Up to 70 ppm Up to 88 ipm  
**Scanning Element:**  
- Front: CCD  
- Back: CMOS CIS  
**Document Size:**  
- Width: 5.5" x 12.0"  
- Length: 5.0" x 17.0"  
- Long Doc. Mode: Up to 24.8"  
**ADF Capacity:** 100 Sheets  
**Interface:** USB 2.0, SCSI-III  
**Dimensions (H x W x D):** 12.4" x 24.3" x 23.7"*  
**Weight:** 90.2 lb.  
**Suggested Daily Volume:** 8,000 Scans  

### Features

- Advanced Text Enhancement (Two Types)  
- Count Only Mode  
- Punch Hole Removal  
- Deskew  
- Color Dropout/Enhance Color  
- Text Orientation Recognition  
- Skip Blank Page  
- MultiStream  
- Scan-to-Job Buttons  
- Error Diffusion  
- ISIS®/TWAIN Drivers  
- Bundled Canon CapturePerfect  

### Options

- Exchange Roller Kit  
- Nine-Month Extended Service Package  
- One-Year Extended Service Package

* Examples based on typical settings, rated in pages/images per minute with letter-sized landscape documents at 200 dpi unless specified. Actual processing speeds may vary based on PC performance and application software.

LOW-VOLUME PRODUCTION SCANNER

The Canon imageFORMULA DR-9080C and DR-7580 production scanners offer outstanding image quality, easy handling, and versatility, all at a price to suit virtually any company’s budget.

Because production-level scanning requires durability, the DR-9080C and DR-7580 scanners are robust yet compact and ready to handle almost any large job. An advanced feeding system and sensor technology help ensure that batches of mixed paper sizes are handled at maximum image quality and scanning speed—just what a production-volume scanner is expected to do.

** Calculation based on scanning speed and assumed daily use.
The Canon imageFORMULA DR-X10C color production scanner uses state-of-the-art technology to deliver high-speed, high-quality image scanning, reliable document handling capabilities and superior durability.

The DR-X10C scanner offers enhanced sensor technology and a reliable feeding system to ensure that high volumes of mixed paper sizes or other challenging scan operations are handled with minimal operator intervention at maximum scanning speed. Plus, the robust, compact design, energy-saving performance, and advanced functionality tackle the high demands of production-level environments.

**Specifications**

- **Type:** Mid-Volume Production Scanner
- **Document Feeding:** Automatic or Manual Sheetfed
- **Scanning Speeds***

OPTIONAL ACCESSORIES/EXCHANGE PROGRAM

Carrying Cases

DR-2050C/DR-2050SP Soft Carrying Case
Item Number: 1029V680
Dimensions (H x W x D): 15.5” x 4.5” x 9”
Weight: 2 lb. (Approx.)

DR-2580C Soft Carrying Case
Item Number: 0676V383
Dimensions (H x W x D): 2.75” x 14.5” x 7”
Weight: 4 lb. (Approx.)

DR-2510C/DR-2010C Soft Carrying Case
Item Number: 1191V396
Dimensions (H x W x D): 12” x 6” x 7”
Weight: 2 lb. (Approx.)

DR-3080CII Soft Carrying Case
Item Number: 1129V241
Dimensions (H x W x D): 13” x 9” x 14”
Weight: 4 lb. (Approx.)

DR-3010C/ScanFront 220/220P Soft Carrying Case
Item Number: 1363V016
Dimensions (H x W x D): 8” x 12” x 15”
Weight: 2 lb. (Approx.)

DR-3080CII Hard Carrying Case
Item Number: 0134V882
Dimensions (H x W x D): 17.88” x 14.5” x 12”
Weight: 19 lb. (Approx.)

Imprinters and Endorsers

Imprinter 50F for DR-5010C
Item Number: 0837B001
Imprinter Side: Front
Dimensions (H x W x D): 8.3” x 19.2” x 7.3”
Weight: 15.9 lb. (Approx.)
Ink Tank 50, Black: 0836B001
Ink Tank 50, Red: 0836B002

Imprinter 50B for DR-5010C
Item Number: 0837B002
Imprinter Side: Back
Dimensions (H x W x D): 11.1” x 19.2” x 7.3”
Weight: 18.7 lb. (Approx.)
Ink Tank 50, Black: 0836B001
Ink Tank 50, Red: 0836B002

ED-500 Endorser for DR-3080CII
Endorser Position Dials: Adjusts the Endorser Position Vertically
