Industry analyst firm Gartner, Inc. has named Canon as a leader in its 2014 Magic Quadrant Report for Managed Print and Content Services (MPCS).

Canon, an industry leader renowned for its outstanding imaging technologies and workflow solutions, offers its expertise through Managed Document Services (MDS). With its systematic approach to print management, information management, and document workflow, Canon adds remarkable value to businesses. Its MDS can help control costs, energize business results, increase productivity and user satisfaction, simplify device management, maximize uptime, and enhance security. It can also help heighten environmental sustainability.

There are five phases of Canon’s MDS program. This framework allows for flexibility and customization to help meet the ever-changing needs of customers while having the back-end infrastructure that can help enable implementation on a global scale. Canon’s broad portfolio of hardware, software, and value-added services is capable of tying into any managed document services engagement.

Canon’s multifunction imageRUNNER ADVANCE Series line is an important component of a comprehensive MDS strategy, providing a streamlined platform that can redefine how businesses access, share, and manage communications.

For more information about Canon’s MDS, go to www.usa.canon.com/MDS.
