

Simple, Convenient and Secure Cost Recovery for Canon MFPs.

Equitrac Embedded for Canon® MEAP puts full cost recovery for copies, scans and faxes at your fingertips – in the touch screen control panel of your MEAP-enabled Canon imageRUNNER multi-function product (MFP).

Part of the Equitrac Professional® 5 cost recovery solution, Equitrac Embedded for Canon MEAP takes full advantage of Canon's Multifunctional Embedded Application Platform (MEAP), providing you access to industry-leading cost recovery and print management capabilities with no terminals to purchase, install or maintain.

Benefits of Equitrac Professional 5 extended to walkup services.

- Maximize recovery of client-billable costs.
- Promote user mobility, convenience and productivity.
- Print documents securely to networked Canon MFPs.
- Manage total output volumes and eliminate waste.

Saving time, increasing productivity, enhancing security.

Network login or ID entry on the device provides users instant authentication to access the full power of the Canon® MFP without having to continually re-enter credentials for their allowed copying, scanning, faxing or email services.

Follow-You Printing™ increases mobility and productivity by freeing staff to output documents at the MFP of their choice – across servers, departments and even geographic boundaries. Secure Document Release protects attorney work-product and client confidentiality by assuring jobs are printed only by the appropriate user when they are physically at the device.

Complete and accurate cost recovery.

Equitrac software captures all MFP job attributes to simplify and automate the charging of variable rates based on document features. Paper size and use of color or black and white – for both copies and prints – can be detected on a page-by-page basis for accurate usage reporting and billing. Validated entry of client/matter information further increases billing accuracy by ensuring proper allocation of every copy, scan and fax produced at the MFP.

"Equitrac software in the Canon® MEAP device is intuitive and easy to use, taking the work out of cost recovery."

The Legal Profession's Leading Cost Recovery Solution

Equitrac Embedded for Canon® MEAP

Advanced technologies, combined for your benefit.

Equitrac Embedded for Canon® MEAP represents the partnership of industry leaders working together to streamline your workflow and help you realize your full cost recovery potential. Thanks to the flexibility of the Canon MEAP platform, and the vast range of applications that it makes possible, Equitrac Embedded for Canon MEAP transforms your Canon MFP into the hub of an adaptive infrastructure for accurate cost recovery, secure and mobile print release, and broad-based device management throughout your firm. Equitrac Embedded for Canon MEAP extends the power of the Equitrac Professional 5 solution to users of Canon MFPs, delivering advantages of convenience, productivity and economy in ways that no one can match.

Press to release

Simply press PRINT to output selected documents.

Print anywhere

Enjoy complete mobility by accessing documents waiting on any print server.

Print job details

Review identifying and descriptive information of any pending document.

Equitrac Embedded for Canon® MEAP simplifies the accurate capture, allocation and billing of every copy, scan, fax and print by making the industry-leading cost recovery capabilities of Equitrac Professional® 5 directly accessible through the front panel of Canon MEAP-enabled MFPs. With no terminal required, the Equitrac Embedded solution reduces your equipment costs while speeding your return on investment.

Advanced Features

Cost savings and recovery

- Fully integrated with Equitrac Professional® 5 cost recovery solution
- Copy, scan and fax tracking captures every document activity
- Configurable client/matter validation increases billing accuracy
- Eliminates unauthorized printing and the waste of jobs that never get picked up at the printer

Ease of use

- Simple, familiar, touch screen on Canon® MEAP-enabled device
- Single integrated user experience simplifies workflow, increases user satisfaction
- On-screen QWERTY keyboard

Security

- Follow-You Printing™ for mobile and secure document release
- Documents output only when users are ready to pick them up from the MFP
- Network login or user ID authentication and access control

IT simplification

- No terminals for IT to install or support
- No additional IP addresses or network drops
- Centralizes device management and control
- Reduces printer-related help desk calls
- Offline support allows limited MFP use in case of network outage
