

- Print speeds listed below reflect measured values based on Canon's unique measurement conditions and are for reference only.
- Actual print speeds may vary depending on printing conditions (document complexity, print frequency, temperature, humidity, printer driver settings and version, application used, system requirements, interface, type of paper used, direct print settings, etc.). Print speeds listed below do not take into account data processing time on host computer and data transfer time.
- Print speeds are calculated by rounding off the actual measurement value to the nearest integer.

Print Speed on Photo Paper (Required time for making a print)									
Print Pattern	<div style="display: flex; justify-content: space-around; align-items: center;"> <div style="text-align: center;"> <p>Image data (1)</p>  <p>A4/Letter ISO/JIS-SCID N2</p> </div> <div style="text-align: center;"> <p>Image data (2)</p>  <p>13"x19" (A3+) ISO/JIS-SCID N2</p> </div> </div>								
Image Size	<p>Image data(1): 8" x 10" Image data(2): 11" x 14"</p>								
Measurement Method	See *1 below								
Media	Canon Photo Paper Plus Semi-gloss SG-201								
Settings	<table border="1" style="width: 100%; border-collapse: collapse;"> <tr> <td style="width: 30%;">Page Size</td> <td>A4/Letter or 13"x19" (A3+)</td> </tr> <tr> <td>Media Type</td> <td>Photo Paper Plus Glossy</td> </tr> <tr> <td>Print Quality</td> <td>Standard</td> </tr> <tr> <td>Borderless</td> <td>A4/Letter or 13"x19" (A3+): OFF</td> </tr> </table>	Page Size	A4/Letter or 13"x19" (A3+)	Media Type	Photo Paper Plus Glossy	Print Quality	Standard	Borderless	A4/Letter or 13"x19" (A3+): OFF
Page Size	A4/Letter or 13"x19" (A3+)								
Media Type	Photo Paper Plus Glossy								
Print Quality	Standard								
Borderless	A4/Letter or 13"x19" (A3+): OFF								
Application	Adobe Photoshop CS2								
PC environment	<p>OS: Microsoft Windows XP Professional SP2 CPU: Intel Pentium4 3.80 GHz RAM: 1GB Interface: USB2.0 Hi-Speed used when applicable</p>								
Notes	*1 Print speeds on photo paper are measured based upon making a single print under the above measurement conditions, starting from the beginning of paper feed using the automatic sheet feeder to the end of paper ejection.
