

CANON'S INSULATED AIR PRESSURE (IAP) BOTTLE

For imageRUNNER ADVANCE 250iF/350iF/255iF/355iF; C3330 Series;
4500 Series; C5500 Series

Canon is committed to investing in Research and Development in order to provide innovative technology that improves usability while being environmentally conscious.

Canon's new Insulated Air Pressure Bottle is designed to help optimize efficiency. This new technology uses an air assistant system that enables a steady supply of toner during the printing process.

THE BENEFITS

Cleaner

- The smaller feed opening helps to minimize toner dirt inside of the machine resulting in less cleaning time.
- There is minimal toner adhesion around the feed opening when removing the bottle, lowering the chances of your hands getting soiled.

Easy Installment

- No cap needs to be removed before being installed.

Environmentally Conscious

- The IAP bottle has no cap, eliminating additional waste.
