Registering the Printer & Scanner 13
Network Requirements
Before connecting the machine to the network, make sure that configuration of the computer and access point or router is complete, and that the computer is connected to the network.

Notes on Network Connection
• The configuration, router functions, setup procedures and security settings of the network device vary depending on your system environment. For details, refer to your device’s instruction manual or contact its manufacturer.

• The machine cannot be used over a wireless and wired connection at the same time.

Wireless Connection
Connect to your network environment over a wireless connection.
Preparing to Connect My Multifunction To My Network

Be sure to prepare an access point.

**Important Information You Need Before Adding Your Multifunction**

The following information is required to connect to your access point or router.

- **Access Point Name/Network Name:** Also referred to as **SSID**. A name to identify the specific access point.

- **Network Key:** Also referred to as encryption key, WEP key or WPA/WPA2 passphrase, Pre-Shared key. A password required to set to prevent unauthorized access to communication.

Check your access point or router for the following information, and then write it down.

**NOTE:** For details on how to check the following information, refer to the manual of your access point or router, or contact its manufacturer.

An "Ad-hoc connection," which establishes a direct connection to the computer over a wireless connection without using an access point, is not supported.
Installing the Drivers & Software

To use the machine by connecting it to a computer, software including the drivers needs to be copied (installed) to the computer's hard disk. The installation process takes about 20 minutes. (The installation time varies depending on the computer environment or the number of applications to be installed.)

**Step One**

Turn on the computer, then insert the **Setup CDROM** into the CD-ROM drive.

**Step Two**

Double-click the **Setup** icon of the CD-ROM folder to proceed to the following screen.

If the CD-ROM folder does not open automatically, double-click the CD-ROM icon on the desktop.
Installing the Drivers & Software

Step Three

Enter your administrator name and password. Click OK.

If you do not know your administrator name or password, click Help, then follow the on-screen instructions.

Step Four

Click Easy Install. Click Install.
The drivers, application software, and on-screen manuals are installed all together.
Installing the Drivers & Software

**Step Five**

Click **Install**

*Applications may vary by model

**Step Six**

Select **Use the printer with wireless LAN connection**, then click **Next**.

Follow any on-screen instructions to proceed with the software installation.
**Step Seven**

Read the License Agreement screen carefully and click **Yes**.

**Step Eight**

When the **Create an Alias on Desktop** screen appears, select **Agree** if you want an alias of the On-Screen manual to be placed on the desktop, otherwise select **Do not Agree**, then click **Next**.
**Step Nine**

Select **Agree** or **Do not Agree** on the **Add Easy-WebPrint EX to the Dock** screen, then click **Next**

---

**Step Ten**

Click **Skip** or **Next** on the Download Easy-webPrint screen
**Step Eleven**

When the **Printer Detection** screen appears, click **Next**

---

**Step Twelve**

Make sure the machine is turned on, then click **OK**.
### Step Thirteen

When the **Detected Printers List** screen appears, select your printer and click **Next**.

<table>
<thead>
<tr>
<th>Detected Printers List</th>
</tr>
</thead>
<tbody>
<tr>
<td>The following printers were detected on the network. Select the printer you want to use from (Detected Printers), and click [Next].</td>
</tr>
</tbody>
</table>

Detected Printers:

<table>
<thead>
<tr>
<th>Model (MAC Address)</th>
<th>Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>MX410 series 6D0.1e.6f.6e.5e</td>
<td>Canon MX410 series_6D0.1e.6f.6e.5e</td>
</tr>
</tbody>
</table>

To detect printers again, click [Redetect].

---

### Step Fourteen

When the **Setup Completion** screen appears, click **Complete** or **OK**.

<table>
<thead>
<tr>
<th>Setup Completion</th>
</tr>
</thead>
<tbody>
<tr>
<td>The computer setup has been completed.</td>
</tr>
<tr>
<td>Model: MX410 series</td>
</tr>
<tr>
<td>Network (SSID): A Network Name</td>
</tr>
</tbody>
</table>

[OK button highlighted]
Registering the Printer & Scanner

This section describes how to register the machine on a Macintosh computer.

**Step One**

When the **Register Printer and Scanner** screen appears, click **Register Printer**.

Proceed to the section that relates to your operating system for further installation instructions

Mac OS X v. 10.5.x / 10.6.x: Go to Step 2-A

Mac OS X v. 10.4.11: Go to Step 2-B
Registering the Printer & Scanner

Step Two
2-A

1. Select Canon MXxxx series in the list of printers, then click Add. *xxx refers to the model number. MX410 series shown in example, below

2. Go to Step Three, page 19.

*The alphanumeric characters after Canon xxxx series is the machine's Bonjour service name or MAC address

Step Two
2-B (OS X v. 10.4.11)

1. When the Printer List window appears, click Add.
Step Two

2-B

2. Click More Printers in the Printer Browser window.

3. Select Canon IJ Network in the pop-up menu, select Canon MXxxx series in the list of printers, then click Add. *xxx refers to the model number. MX410 series shown in example, below.
**Step Two**

2-B

4. Make sure that the **Canon MXxxx series** is added to the list of printers.

*xxx* refers to the model number. MX410 series shown in above example.

**Step Three**

When the **Register Printer and Scanner** screen appears, click **Register Scanner**.
Registering the Printer & Scanner

**Step Four**

Select **Canon MX410 series** on the **Canon IJ Network Scanner Selector EX** screen, then click **OK**

**Step Five**

Click **Next** on the **Register Printer and Scanner** screen.
Step Six
Click Next on the Print Head Alignment Recommended screen.

Step Seven
Click Next on the Register Printer and Scanner screen.
Step Eight

If the User Registration screen appears, read the information and click Next or Cancel.

If the Extended Survey Program screen appears: If you can agree to Extended Survey Program, click Agree. If you click Do not agree, the Extended Survey Program will not be installed. (This has no effect on the machine’s functionality.)
Registering the Printer & Scanner

Step Nine

Click Exit. Setup is complete

*It is necessary to restart the computer before scanning using the Operation Panel on the machine for the first time.
