Preparing to Connect My Multifunction To My Network

[<< Previous](#)

[Next >>](#)

Network Requirements

Before connecting the machine to the network, make sure that configuration of the computer and access point or router is complete, and that the computer is connected to the network.

Notes on Network Connection

- The configuration, router functions, setup procedures and security settings of the network device vary depending on your system environment. For details, refer to your device's instruction manual or contact its manufacturer.
- The machine cannot be used over a wireless and wired connection at the same time.

Wireless Connection

Connect to your network environment over a wireless connection.

An "Ad-hoc connection," which establishes a direct connection to the computer over a wireless connection without using an access point, is not supported.

Be sure to prepare an access point.

Important Information You Need Before Adding Your Multifunction

The following information is required to connect to your access point or router.

- **Access Point Name/Network Name:**

Also referred to as **SSID**. A name to identify the specific access point.

- **Network Key:**

Also referred to as encryption key, WEP key or WPA/WPA2 passphrase, Pre-Shared key.

A password required to set to prevent unauthorized access to communication.

Check your access point or router for the following information, and then write it down.

NOTE: For details on how to check the following information, refer to the manual of your access point or router, or contact its manufacturer.

Installing the Drivers & Application Software

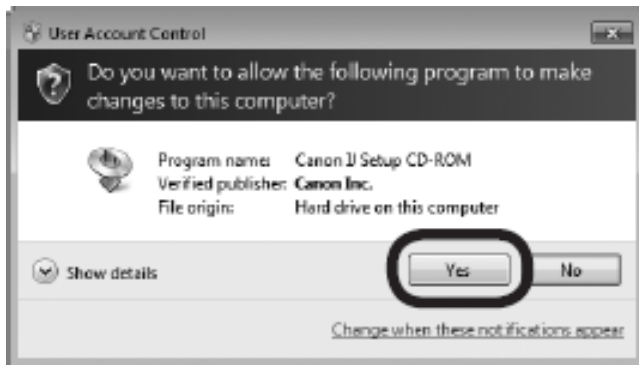

[<<Previous](#)

[Next>>](#)

Step One

insert the **Setup CD-ROM** into the CD-ROM drive. If the program does not start automatically, double-click the CD-ROM icon in **Computer** or **My Computer**, then doubleclick **MSETUP4.EXE**.

For Windows 7/Windows Vista: Click **Run Msetup4.exe** on the **AutoPlay** screen, then click **Yes** or **Continue** on the **User Account Control** dialog box. If the **User Account Control** dialog box reappears in following steps, click **Yes** or **Continue**.

Step Two

Click **Easy Install**.

The drivers, application software, and on-screen manuals are installed.

Installing the Drivers and Software
