Installing Your Multifunction to Your Network

PIXMA MG6820

Windows
Setup and Installation

The instructions contained in this document apply equally to first-time installations, adding the printer to additional computers in the Wireless Network and for re-installations after a Router or Network change.

To use the machine wirelessly with a computer, the printer must be connected to the Wireless LAN and software including the drivers needs to be copied (installed) to the computer's hard disk. Installation time varies depending on the computer environment or the number of application software to be installed.

**IMPORTANT**
- Log on as the administrator (or a member of the Administrators group).
- Quit all running applications before software installation.
- Do not switch users during the installation process.
- Internet connection may be required during the installation. Connection fees may apply. Consult the internet service provider.
- It may be necessary to restart your computer during the installation process. Follow the on-screen instructions. The installation resumes once your computer has restarted.
- If the firewall function of your security software is turned on, a warning message may appear that Canon software is attempting to access the network. If such a warning message appears, set the security software to always allow access.
1. From the **Home** screen, swipe from right to left until **LAN settings** appears. Then tap its icon.
2. Tap **Wireless LAN setup**.
Connecting to the Wireless LAN

3. Tap **Cableless setup**.
4. Tap **OK** on this message.
5. When this screen appears, the printer is waiting to receive the information on the wireless network. Go to the computer.
Connecting to the Wireless LAN

Insert the Setup CD-ROM into your computer.*

Click [Run Msetup4.exe] on the AutoPlay screen, then click [Yes] or [Continue] on the User Account Control dialog box.

If the CD-ROM does not autorun:

*If you don’t have or cannot use the Setup CD-ROM, follow the steps below to start the setup.

- Download the software (click the link to download)
- Double-click the downloaded .exe file (win-mg6800-1_0-jucd.exe)

If the User Account Control dialog box appears during the setup, click Yes or Continue.
Connecting to the Wireless LAN

Click **Start Setup** on the initial screen.
Continue following on-screen instructions to select country, License Agreement, etc. until the Select Connection Method screen appears. Be sure to select **Wireless LAN Connection**, then click **Next**.
Connecting to the Wireless LAN

Select **Connect via wireless router (recommended)** then click **Next**.

To switch between the connection via wireless router and Direct Connection or for more details on the connection method, click **Instructions**.
Click **Next** on the **Check Power** screen.

**Check Power**
Make sure that the printer is turned on.
On the **Printers on Network List** verify your printer is selected by checking the listing in the **Serial Number** column. This will show the last 5 digits of the printer's serial number. The serial number is found on a sticker on the back of the printer near the bottom. Click **Next**.

1. To set a printer on the network, select one from the above printers list and then click [Next].
   - The serial number can be found on the back of the printer and on the Letter of Guarantee.
   - The above list displays only the last 5 digits of the serial number.
2. If the setting printer could not be found on the above list, turn on the printer and click [Update].
3. If the printer could not still be found, select [Setting printer could not be found on the list], and the click [Next].
Connecting to the Wireless LAN

Click **Next** on the **Connection Completed** screen.
Installing the Drivers & Software

Continue to follow on-screen instructions. Click **Next** on the **Setup Complete** screen.

*Setup Complete*

The setup for printing from the computer is complete. Next the software will be installed.
Installing the Drivers & Software

Continue to follow the on-screen instructions. On the Software Installation List, select any of the optional software to install and click Next.

Software Installation List
The selected software will be installed. Make sure that the software you want to install is selected, and then click [Next].
