<1> All Technical & Implementation Services are Statement of Work based and require Canon Professional Services to provide estimated hours required per project.

<2> Canon Professional Services MUST be engaged prior to any services order entry. All engagements required a Project ID with order submission.

<3> Customization Services are based on level of effort and requirements assessed per project.

<4> Support Services are provided on a points based system with points allocation based on the complexity of the solution being supported.

<5> Allocated points are established on either a monthly or annual basis depending upon the engagement and support services being provided.

Device Re-Allocation

Item Code	Description	NASPO Price
TBD	Relocation of Device	\$150 - \$1800 /Device

· As part of the account review process, over and underutilized devices may be identified. In order to maintain maximum efficiency of the fleet these devices may need to be relocated on the same floor, within the building, or to another location covered by your MDS agreement.

· The Device Relocation Fee is for the de-installation of the device, transportation to the new location, and re-installation of the device at the new location.

· Canon has established the above price range for device re-allocation services as a bench mark. Variables that are taken into consideration in determining the price for reallocating devices are items such as the type of device (printer or imageRUNNER), the on-site location (within the building or floor), or the distance to a new building (within 50 miles of the original location).

· Please note that rigging requirements will apply. Rigging refers to any inside delivery or removal from or to point of installation where adequate access (elevator) is not available, requiring movement of equipment up stairways, through windows, etc. If rigging is required this will be quoted as an Open Market Item.
