

CANON SUPPORTS THE ARBOR DAY FOUNDATION'S 2019 "REPLANTING OUR FORESTS" PROGRAM

Canon U.S.A. continues to collaborate with the Arbor Day Foundation to help give back to the environment.

Forests are vital to life as we know it – and they need our help. Through this program, Canon will contribute to the distribution of one tree for every eligible imageRUNNER ADVANCE multifunction system sold from April 1, 2019 to December 31, 2019, up to a maximum of 50,000 trees.

Canon's imageRUNNER ADVANCE Series incorporates an array of environmentally conscious features designed to help reduce CO₂ emissions over the entire product life cycle.

This program helps the Arbor Day Foundation's replanting efforts in areas where insects, fire, and disease have taken their toll over the years, leaving an urgent need to replenish. These efforts assist in revitalizing forests across the country to help ensure that they live on for future generations.

Canon will provide its eligible customers with a certificate to recognize their purchase and the trees to be planted. For more details, visit usa.canon.com/arborday.
