Canon Products for Professionals

**Cinema EOS Cameras**
Canon’s Cinema EOS cameras offer versatility in size, performance and price. From the EOS C700 to the EOS C500, EOS C300 Mark II and EOS C200, these Full HD and 4K cameras offer high reliability and output flexibility to meet various production applications.

**EF Lenses**
Canon offers a broad spectrum of high-quality EF lenses that can be used and interchanged with ease to fit almost any budget and application. From fisheye to macro to super telephoto, Canon EF lenses have proven themselves time and again in different types of shooting situations.

**Cinema Lenses**
Canon’s portfolio of Cinema lenses offers spectacular 4K-image quality in a lightweight and dust-/water-resistant compact design. All Cinema lenses share uniform front lens diameters, allowing shooters to quickly and conveniently switch lenses as needed.

**Professional Camcorders**
A wide variety of highly affordable, handheld professional camcorders are available to meet any project demand. Many models offer built-in recording storage, live streaming and a handy grip that can be used to mount required peripherals.

**2/3-inch Broadcast Lenses**
Canon’s legendary broadcast lenses draw from a long history of refined optics and incredible performance. Often used by professionals recording news and documentaries, they are compatible with larger sensor cameras via an optional B4 Mount Lens Adapter and can fit easily into a variety of workflows.

**Remote Shooting Options**
Select Canon cameras allow remote control through a variety of options. The Canon RC-V100 Remote Controller can be used to remotely operate compatible products, such as Canon’s Multi-Purpose cameras. Products that feature a built-in Wi-Fi® connection* can be controlled through a compatible IP-enabled device and a Browser Remote app.

*Compatible with iOS® versions 9/10, Android™ smartphone and tablet versions 4.4/5.0/5.1/6.0/7.0/7.1. Data charges may apply.
