DARE TO DREAM
VIDEO CREATOR KIT

EOS 70D | EOS REBEL T6i | EOS REBEL T5i

STAND OUT
FROM THE CROWD

When you're one in a mass of a million voices, do you dare to dream and outshine the rest? For all creators aiming to stand out from the crowd, let Canon's Video Creator Kit help you broadcast your vision with eye-opening image quality and performance that professionals have trusted for years. You've got the talent. We've got the tools. Now let's make that dream of yours a reality.

VIBRANT VIDEO

Capture Full HD videos with options from 24p recording for a cinema-like style, to 60p recording for slow motion action. Make it easy with continuous autofocus that keeps your videos smooth and sharp, and save them in MP4 or MOV format for easy sharing.

SMOOTH SOUND

Easily hook up a microphone to record crisp audio with the built-in mic port and hot shoe. The lightweight and sturdy RODE® VideoMic GO™ microphone that comes with the Video Creator Kit is a great choice to help enhance your audio quality.

SELFIE-READY WITH WIDE-ANGLE

Selfies and big group shots are easy with wide-angle lenses like the EF-S 10–18mm f/4.5–5.6 IS STM. Their range means you don't have to leave anyone out, and you don't have to squeeze close together to do it.

STEP IT UP
WITH SELECT STM LENSES

Canon's EF lenses can help bring high image quality to a wide variety of videos, from selfies with friends to distant action scenes. What's more, Stepping Motor or STM lenses operate in near silence so you can shoot videos without worrying about extra noises from the lenses.

HEAR EVERY NOTE WITH STM

STM lenses like the EF 50mm f/1.8 STM focus in near silence, meaning they're great for videos where you can't afford any unwanted noise. Record original music and more without extra sounds getting in your way.

JUMP INTO ACTION WITH TELEPHOTO

Leap right to the action with telephoto lenses. With an incredible zoom like the EF-S 55–250mm f/4–5.6 IS STM's, you can get close to even faraway scenes.
