HIGH-QUALITY, FAST SCANNING MADE EASY

CanoScan LiDE400
COLOR IMAGE SCANNER

KEY FEATURES

Vertical Scanning
Scan easily and conveniently with upright scanning to accommodate workspaces of just about any kind.

8-Second High Speed Scanning¹
Enjoy high speed scanning in as fast as 8 seconds, with the included USB Type-C™ cable. With USB Type-C™ the CanoScan LiDE400 has one cable for data and power.

Maximum Optical Resolution² of 4800 x 4800 dpi.

With Send to Cloud² you can easily upload your documents and images to Cloud services like Microsoft OneDrive™ and Dropbox®.

‘EZ’ Buttons lets you scan, copy, Send to Cloud² or create PDFs (single & multi-page) at the push of a button.

One USB Type-C™ Cable carries data and power for added convenience.

| Warranty⁴             | 1-Year limited warranty with InstantExchange Program |

### PRODUCT INFORMATION

| Model No.             | CanoScan LiDE 400  
Color Image Scanner 2996C002AA |

**SPECIFICATIONS ARE SUBJECT TO CHANGE WITHOUT NOTICE. ALL VIEWSCREEN AND PRINTER OUTPUT IMAGES ARE SIMULATED.**

1. Color document scan speed (Color Letter / A4 300 dpi) is measured with ISO/IEC 29183 Target-A. Color photo scan speed (Color 4" x 6" 300 dpi) is measured with ISO/IEC SCID No.2. Scan speed indicates the time measured between pressing the scan button of the scanner driver and when the on-screen status display turns off. Scan speed is measured using a USB 3.0 interface using the included USB cable on a PC, and may vary depending on system configuration, interface, software, scan mode settings and document size etc.

2. Optical resolution is a measure of maximum hardware sampling resolution, based on ISO 14473 standard. Increasing the scanning resolution will limit the maximum possible scanning area.

3. Internet Connection Required. Requires active Cloud service account, and required software must be installed on computer for "Send To Cloud" function to work with those services.

4. Auto Scan Mode is available when scanning at a computer using the IJ Scan Utility or IJ Scan Utility Lite software and selecting the 1-click feature then "Save To PC" or using the Auto Scan Mode 'EZ' button on select models. Auto Scan Mode is not available in upright scanning mode.

5. Extracting text from scanned images (OCR (Optical Character Recognition)) is only available when extracting text when scanning via Document, Custom, or Driver settings using the IJ Scan Utility/IJ Scan Utility Lite software on a compatible operating system. For more information, please see the product User Manual.

6. Operation can only be guaranteed on a PC with pre-installed Windows 10, Windows 8.1, Windows 7 SP1.

7. Internet Connection required during software installation. For full compatibility macOS v10.12.1 or later is recommended.

8. Scanning on the Linux operating systems requires "ScanGear MP for Linux" scanner driver installed.

9. Warranty programs are subject to certain conditions and restrictions. See www.usa.canon.com/support for details.
