

## imageWARE Enterprise Management Console

## RESOURCE MANAGEMENT PLUG-IN

### Control all resource data for imageRUNNER or imageRUNNER ADVANCE systems

The optional Resource Management Plug-in for imageWARE Enterprise Management Console manages and distributes resource data for networked imageRUNNER or imageRUNNER ADVANCE systems.

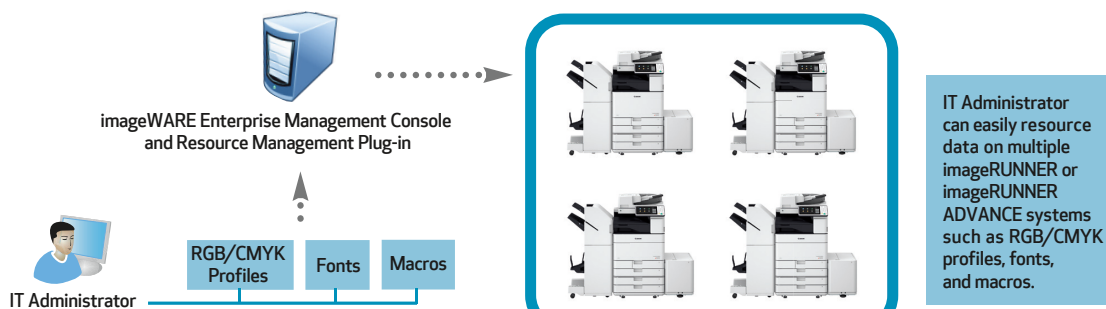

#### SYSTEM REQUIREMENTS

The Resource Management Plug-in must be used with imageWARE Enterprise Management Console and conform to the same system requirements.

#### Advantages of this Plug-in:

- Centralized management of imageRUNNER resource data such as fonts, color profiles, and macros.
- Upload and distribute resources to network devices and delete any resource.
- Create and manage “resource sets” of the same resource type to distribute multiple resources simultaneously.

#### Resource Management Plug-in Workflow
